MERCHANTS AND MINERS' LINER ASHORE

AMERICANS IN SURPRISE ATTACK

KERSHAW AGROUND; NO LIVES LOST

Captain McDorman by Wireless Reports Steamship's Passengers Are Safe

The steamer Kershaw of the Merchants' and Miners' Line, is aground off the North Atlantic Coast, according to wireless messages received in the Boston office of the company today.

No information has come as to whether the steamer is being aided by other vessels, but Captain McDorman reports that the 121 passengers are safe, and that he believes the Kershaw can be floated.

The Kershaw carried besides the passengers a cargo of cotton, peanuts and other Southern products. It is believed that the vessel was driven on the rocks by a heavy gale.

In 1911 the Kershaw, then commanded by Captain Johnson, went ashore off Monomoy Point, Chatham, on Shovelful Rip, during a heavy fog. The Juniata of the same line took off the passengers and after the cargo was lightered the Kershaw was taken off, apparently uninjured.

Bay State Liner Georgia Grounds Near Hell Gate, but Is Soon Refloated

New York, March 13.—Due to an accident to her steering gear, the Sound steamboat Georgia of the Bay State Line, en route here from Providence with more than 100 passengers on board, ran aground on the Long Island shore just above the Hell Gate bridge early today.

A New York, New Haven & Hartford Railroad tug hurried to the stranded steamer's side and took off the passengers. Two hours later the Georgia was pulled afloat by tugs and sent on her way to her pier in the North River under her own steam. Agents of the company say she was undamaged.

Georgia Left at 7 p. m. Last Night on Her Trip Providence to New York

The Bay State liner Georgia left the pier at South Warner street, Providence, at 7 o'clock last night for New York. Officials at the Providence office of the line stated today they had no report regarding an accident to the steamer.

They also stated that they had no list of passengers, this list having been given to the purser when the boat sailed.

The Georgia, which in 1911 was in the service of the Joy Line, went aground in December of that year on the mud flats in upper Narragansett Bay, near Sabin's Point. She was not damaged and was pulled off the shoal without attempt to land passengers.

The Georgia is the vessel upon which Mrs. Lily Shannon Nickerson of Jamaica Plain was slain in the Summer of 1911. No arrest were ever made and it was put down as one of the sea's unsolved mysteries.

FRENCH RAIN BOMBS ON HUN AERODROMES

By International News Service.

Paris, March 13.—While German airplanes were attacking Paris on Monday night French machines raided German military aerodromes in the rear of the German lines, it is officially announced. Many tons of bombs were dropped and it is believed that much damage was done.

It is now learned that at least five of the German machines were shot down in the raid on Paris.

The Germans employed the Gotha airplanes, the same type as used in attacking London.

Urges "Workless" Days to Get in Year's Crops

By International News Service.

Washington, March 13.—"State wide workless days" during the harvest season were advocated this afternoon by Assistant Secretary of Agriculture Ousley.

Appearing before the Senate Committee on Agriculture, Ousley stated that it would be necessary to close non-essential industries for a period of fifteen days during the harvest season, in order that workers might be sent to the farms.

"No act of legislation can send the men back to the farms," he declared. "I believe the business men will have to close their places for days and even weeks and go into the fields and help harvest the crops."

COMMISSIONERS OF STREETS REMOVED

Mayor Peters Ousts Goodwin and Brennan, Who Would Not Resign

Mayor Peters today removed from office two street commissioners, Frank A. Goodwin and Francis J. Brennan, who had received $4000 a year. In a letter sent them this morning they were notified of their removal, which is made on grounds of inefficiency.

About a week ago they were asked by the Mayor to resign, but they took a defiant attitude and declared that they would force the issue. It was understood at that time that a time limit had been placed in which they must submit resignations or be removed.

To succeed Mr. Goodwin the Mayor has named Fred E. Bolton, principal assessor. He has not made any choice for Brennan's successor.

SPECIAL DIRECTIONS FOR CAMP DEVENS MAIL

Washington, March 13.—The Postoffice Department today instructed postmasters to advise patrons to address mail to soldiers at Camp Devens, Mass., as follows:

"Private; company; regiment: Camp Devens, Mass."

The name of the postoffice, Ayer or Fitchburg, should not be included in the address. Mail intended for the military personnel at Camp Devens should not be included in packages for Ayer or Fitchburg, even though it be so addressed.

Judge Burr Dies In Court

FATALLY STRICKEN ON BENCH

Successor to the Late Elijah George Had Been at Post Only Three Days

Judge Arthur E. Burr, who on February 20 was appointed to succeed the late Elijah George as judge of the Probate Court, dropped dead today while attempting to straighten out a disputed probate account.

Judge Burr took up his duties Monday morning, and today was hearing a case that had been passed upon by his predecessor, but who had not entered a decree at the time of his death.

At the time of his appointment by Governor McCall to the Probate Court, Arthur Ellington Burr was a Representative from Ward 8, Boston. He was born in Boston on July 23, 1870; graduated from Harvard University in 1891 and Harvard Law School in 1894. He was sent to the Legislature from Ward 8 and at the time of his appointment was serving his fourth year.

On March 11 he was formally inducted into office as judge of the Suffolk Probate Court by Judge Grant, who welcomed his associate to the position vacated by the death of Judge George about three weeks ago.

The disputed probate account which Judge Burr was hearing centred on the administration of the estate of John J. Walsh, who conducted a wholesale and retail liquor business at Forest Hills. Walsh died in December, 1915, leaving an estate valued at about $50,000.

Thomas F. Walsh, brother of the deceased and one of the administrators, asked to be allowed $1,500 as compensation for conducting the business after his brother's death and a further sum of $1,500 for payment of legal services. The widow objected to these allowances.

Elevated Service Is Menace, Says Eastman

Public Service Commissioner Joseph B. Eastman, speaking before the joint legislative Committee on Street Railways at a hearing on the Elevated's problems today, assailed the Elevated's service as a positive menace to the growth of the Metropolitan district and declared that the company had lost public confidence.

The company's tracks are bad, he charged, and its cars old and absolete. He declared that the shops themselves are in bad condition, and are in need of modernization and repairs.

"The service and condition of the Boston Elevated are an actual menace to the growth of the Metropolitan District," he said. "The company has lost ground. It is not fitted to give good service, and is now giving poor service at a high cost."

Any plan of helping the Elevated, he said, would fail unless it could command the confidence of the general public. That, he said, is something that the company does not now possess. Some means of public control, he believed, is the only means of solving the problem. He suggested that the directors of the company be appointed by the Governor and the Mayor.

BALFOUR TO DISCUSS SIBERIAN PROBLEM

London, March 13.—The question of Japanese intervention in Siberia will be brought up in the House of Commons on Thursday, when Foreign Minister A. J. Balfour is expected to make a statement on the subject.

H. B. Lees-Smith, a Liberal member from Northampton, gave notice that he would raise the question.

Advices from Tokio state that there have been interchanges between the British and Japanese governments upon the matter, but that Japan is acting with the utmost caution for fear of offending the Russians.

Another Million Will Go Into Service During 1918

By International News Service.

Washington, March 13. — The United States is to put at least another million men in uniform during 1918. Not all of them will be combat troops. Thousands will be sent to the technical staff corps.

The program apparently has expanded to the limit of the authority contained in existing legislation. It will be carried out as factors permit.

BIG DRUG RAID MADE IN SOUTH BOSTON

West Broadway Cobbler Arrested With Younger Man and Girl

Officers of the Athens street police station in South Boston today made the most important seizure of drugs and accessories in the history of the district, as judged by men who have been on the force many years. They obtained scales and other paraphernalia and between $1,000 and $1,500 worth or morphine.

They made a raid on the shoe repairing shop of Vincenzo Viola, on West Broadway. There they arrested Viola, who is about 60 years old, and Michael Gravidei, about 26 years old. Viola, the police say, has been living in West Second street, South Boston, where they arrested Miss Marian Leonard, about 25 years old, who gave her address as East Boston. Gravidei, the police say, also has a room in East Boston, and another in Squire's court, East Cambridge. They charge that he used the shoe shop of Viola to carry on his drug business.

In court later Gravidei was held in $2,000 until next Wednesday, March 20, on charges of having morphine in his possession, being present where morphine was found and conspiring to engage in the traffic and delivery of the drug. Viola, on similar charges was held in $1,000. Both pleaded not guilty. The young woman pleaded guilty to having morphine in her possession and her case was continued for sentence to the same date.

CONGRESS OF SOVIETS POSTPONES SESSIONS

London, March 13.—Advices received today from Moscow state that the Pan-Russian congress of Soviets postponed the beginning of its sessions until tomorrow. The congress is to pass on the peace agreement entered into by the Bolshevik government and the representatives of the central powers. The postponement was caused, it is believed, by the failure of a large number of delegates to arrive in Moscow in time for the scheduled opening yesterday.

MRS. JAY WOULD BAR DR. MUCK AT CONCERTS

New York, March 13.—Mrs. William Jay has renewed her attack on Dr. Karl Muck, conductor of the Boston Symphony Orchestra. She said that the force of public opinion should stop the scheduled concerts in Carnegie Hall on Thursday and Saturday evenings. Mrs. Jay also indicated that she would take steps to prevent Dr. Muck's appearance but declined to reveal her plans.

WOMAN KILLED, 20 HURT IN PITTSBURGH WRECK

Pittsburgh, March 13.—One woman was killed and twenty other persons were injured, four seriously, when a trolley car was derailed on a steep grade and ran along the ground here today. Bessie Rodgers, thirty-eight, in jumping from the car was thrown under the wheels and crushed to death.

ENTENTE IS SPLIT OVER FAR EAST

Cabinets Fail to Agree on Siberia—May Restate War Aims

By International News Service.

Washington, March 13.—President Wilson's bold stand for the autonomy of Russia with its indirect warning to Japan against intervention in Siberia may force a new statement of war aims from the entente powers, it is officially believed.

The effect on the co-belligerents of the United States of the promise of support for the Russian people carried in the message forwarded on Monday to the Soviet Congress at Moscow has been far greater than was expected.

Advices now coming in from Europe are said to indicate that more than one cabinet, which at first openly approved the Japanese plan to invade Asiatic Russia is now divided on the subject. The situation is not expected to develop a menace to the allied cause.

MAY CHANGE STAND.

On the contrary, it is confidently believed a new definition of policies from England, France and Italy which would be tempered with moderation, would add strength rather than weaken the combined political forces opposing Germany.

The situation with all of its possibilities was thoroughly canvassed by President Wilson and the cabinet officers at the meeting of the official White House family. The result is said to have been unanimous approval of the course adopted by the Chief Executive in affording assurance of sympathy and support for the unhappy Russian people.

It was also learned that the President's brief message should be regarded as having the same official status as the statements he has delivered before Congress concerning the purposes for which the United States entered the war.

SENT TO ALL CAPITALS.

The communication, like the message delivered through Congress, has been transmitted by the Commission on Public Information to every world capital to which there is access. It went direct to London, Paris, Rome, Pekin and Tokio as well as to Moscow. The neutral countries were included in the plan for publicity and through the American consular representatives at The Hague the text was delivered to the Wolff Agency for distribution in the Central Empires.

While primarily a message of encouragement for Russia, it was also a restatement of the war aims of the

3 DEAD IN BRIDGEPORT FOLLOWING EXPLOSION

Bridgeport, Ct., March 13.—Mrs. Minnie Unger, sixty-five, her son, Harry Unger, nineteen, and a daughter, Martha, sixteen, are dead and another daughter, Theresa, five, may recover from burns resulting from an explosion which set fire to their home when the son poured kerosene oil on a coal fire.

Following the explosion Harry Unger ran 100 yards to the home of a neighbor with his clothes afire. The aged woman and her two daughters were rescued from the burning house and with the brother, rushed to the Bridgeport Hospital, where three died of their injuries.

AMERICANS ARE OUT OF RUMANIA

British and French Missions Also Safe, Despite Trouble With Austrians

Washington, March 13.—The American Red Cross representatives, the American military attache and the British and French military missions are safely out of Rumania.

A cable message from Minister Vopicka at Jassy, reaching the State Department today, dated March 10 said the party carrying safe conducts from the King of Rumania as far as Odessa left the previous day for that city.

Another message sent before the one of the tenth also came in today and described the attempted violation of Count Czernin, Austrian Premier, of his pledge that the missions, which numbered several hundred men, would be free to go when ready.

The message said Czernin had decided they must go into quarantine for one month "for sanitary reasons." Vopicka declared no such reason existed, but Czernin did not carry out his threat.

BAKER OFF TO VISIT U. S. TROOPS AT FRONT

Paris, March 13.—Newton D. Baker, the American Secretary of War, is scheduled to leave Paris today for a visit to the American front.

The newspaper Liberte, in its comment upon the American official's visit, says it is further proof that America intends to throw all her strength on the western front to offset the collapse of Russia.

Teutons Are Restless Again; New Demand for Peace

By H. H. STANBURY.

Washington, March 13.—Germany and Austria-Hungary are seething with new political and social unrest owing to the methods employed by the war lords in forcing peace on the eastern front according to confidential diplomatic advices received here.

A secret manifesto signed by the Jugo-Slav group in the Vienna Reichsrath demands that immediate steps be taken to secure a general peace with all nations.

DEMAND FOR PEACE.

The demand for peace contained in the protest from the Jugo-Slavs of Austria-Hungary is, in part, as follows:

"The terrible pressure of the present world war has resulted in the extermination of the flower of our youth who have not infrequently found themselves opposed in battle to each other. At the same time, there has been inside the monarchy a bitter persecution of the Jugo-Slavs. Tens of thousands of families have been exterminated. Men, women and children have been assassinated with or without ostensible grounds, their property plundered or destroyed.

"The so-called constitutions offered by the monarchy as affording the possibility of further development of the peoples are a farce. In reality these very constitutions entrench the German and Magyar in their organized

Three Aircraft in the German Attack on Yorkshire

London, March 13.—There were three aircraft in the German raiding squadron that attacked the Yorkshire coast last night, it was announced today by [illegible] French, commander in chief of the home forces.

Bombs were dropped on [illegible] where a house was demolished. One woman died of shock.

[illegible]

The attacking craft were Zeppelins, this being the first time that the dirigibles were used in attacking England for some months.

HUN 'OFFENSIVE' IS CONFINED TO CANNONADES

Big German Artillery Very Active in Four Sectors Along the West Front

By International News Service.

London, March 13.—There were heavy German cannonades last night in the sectors of Messines, Lens, Passchendaele and Cambrai, says the official statement issued by the War Office today.

[illegible]

There is a disposition on the part of the military critics to believe the Germans are awaiting results in Russia before undertaking any big operations in the West.

The Germans are using artillery ammunition lavishly all along the front, but so far they have made no definite step toward an offensive. It is now three months since the Germans began to advertise their long-heralded drive on the West front, but in all that time they have been confined to raids and artillery work. There have been countless rumors in the meantime about troop movements behind the German lines and in reports that the offensive was imminent, but these always proved unfounded.

The weather has improved, but even that has not proved a decisive factor.

FULL COAL SUPPLY FOR SHIPPING BOARD

Washington, March 13.—A full supply of coal for the United States shipping board at tidewater points was assured today when the Fuel Administration announced that coal operators in the Pocahontas and New River fields of West Virginia, whose mines are adjacent to the Chesapeake & Ohio and Virginia railroads, will ship all their output, except coal for by-products, to tidewater until further notice.

TODAY'S BANK STATEMENT.

Boston bank clearings, $43,401,387.

Boston sub-treasury credit, $190,992.

New York bank clearings, $562,735,843.

New York sub-treasury debit, $2,295,258.

HUNS' GAS OFFENSIVE HALTED BY U. S. BOYS

Pershing's Artillery Forestalls German Onslaught While Infantry Charges

Paris, March 13.—The latest report issued by the French War Office records fresh activity on the American sector in Lorraine. The official report states that the United States troops delivered a surprise attack against the Germans which proved successful.

According to the War Office report the American attack took place [illegible] north of Richecourt [illegible] French Lorraine [illegible]. Details [illegible]

It is considered that the American [illegible] The Germans had prepared gas projectors for their attack and the American artillery fire, which was greatly increased in intensity following the American infantry attack, destroyed the German gas galleries. Much damage was observed behind the German lines as a result of the American artillery bombardment.

Paris, March 13.—Heavy cannonading has taken place on the Lorraine front, according to the French War Office.

PRICES IRREGULAR IN THE STOCK MARKET

New York, March 13.—Trading was dull at the opening of the stock market with prices irregular and generally moving to lower levels.

American Telephone & Telegraph was a strong feature, advancing over 1 point to [illegible]. United Cigar Stores [illegible]

Steel common ranged between [illegible] and [illegible]. Bethlehem Steel B, selling ex-dividend of 1½ per cent, dropped [illegible]. Baldwin Locomotive rose to [illegible]

Reading was up [illegible]. St. Paul preferred dropped 1 point to [illegible]. Union Pacific rose [illegible]. St. Paul common sold down to 42.

Mexican Petroleum after advancing [illegible] quickly yielded to 98½. Distillers Securities was in good demand, advancing 1 point to 39.

The copper stocks made fractional gains.

The market was subjected to a [illegible] pressure all through the forenoon, but there was no indication that any long stock had been dislodged. American Telephone & Telegraph dropped 2 points to [illegible], and Marine preferred, after selling down to 97¼, moved up to 98. St. Paul preferred was the most active of the rails, yielding to 72½ and then advancing to 73½. Steel common held around 91.

GRANT MORE FLOUR TO MAKERS OF MACARONI

Washington, March 13.—The Food Administration announced today that manufacturers of macaroni and kindred products for the army and navy shall be allowed such an excess of wheat flour over their 70 per cent allotment as is demanded by any new army and navy contracts.

INDICT TWO DETECTIVES IN CHAIN OF BURGLARIES

New York, March 13.—Indictments have been returned against Detectives William Heydorn and Edward C. Burgess, who are said to have acted in collusion with burglars and receivers of stolen goods. Both are charged with burglary, bribery, accepting unlawful fees and compounding a felony.

14,500 ARE KILLED WITHOUT WARNING BY GERMAN SUBMARINES

OUTRAGE BY HUNS ON SEA

Victims Slain in Pursuit of Lawful Vocations on Merchant Ships

By International News Service.

Washington, March 13.—A total of 14,500 persons have been killed by German torpedoes hurled without warning into merchant [illegible].

This figure, compiled by British authorities, was [illegible] for the first time here by a distinguished diplomat who recently arrived in Washington after a [illegible] New York.

"Torpedoed without warning," he said, "has got to be such a frequent occurrence [illegible] at the sight of its outrageousness [illegible] go to the British mercantile marine if you want to see the determination of the British people to continue this war.

BRITISH DETERMINATION.

"For cruise after cruise these men sign on. They go into the stokeholds and they stand watch in the [illegible]. They have formed themselves into a league sworn to fight on until the power that killed their comrades is avenged.

"They are killed in their lawful vocations—torpedoed without a chance to leave the ship, or shot at in lifeboats, or at best given the slim chance for life in an open boat in a Winter gale on the North Atlantic. They have but one word for torpedoes without warning. It is not surprising that the word is 'murder.'"

This statement was brought out in response to a suggestion that peace talk was again in the air.

UNITED TO END.

"England," was the reply, "has never been more united for war to the end. Lloyd George's speech in January cleared the air. Hertling's speech and the way his words were [illegible] in Russia fixed the determination of the whole nation as that of our seamen had already been fixed.

"I must say that in New York and here in Washington in every one to whom I have talked I have found a determination to win the war even more vigorously expressed than the British. They always say that we cannot stop until we get an American and not a German peace."

K. OF C. WAR WORKERS SOON TO LEAVE FOR THE FRONT

©1917 PHOTO. by INTERNATIONAL FILM SERVICE.

These workers of the Knights of Columbus will soon sail for France for work behind the American front. They are, left to right, seated, Secretary J. C. Dawson, Rev. A. Alterman, Rev. James Conoway, Walter N. Kernan, Rev. Dr. Marsh, Victor M. Egas and W. W. O'Neil. Standing, left to right, J. S. Scully, John D. Sparks, James F. Kernan, Miss Ronaque Tess, Miss Elizabeth Cole, Miss Rosemary Kernan, James Murray, Thomas J. McAndrews and Rev. F. A. Bandschu.

Uprising Against Austrian Rule Is Growing

By International News Service.

Geneva, Feb. 20 (By Mail).—Political ferment exists in Croatia and anti-Austrian agitations are on the increase, according to information received here today.

The Hungarian newspaper Pesti Hirlap prints some interesting revelations concerning the spread of the Jugo-Slav movement in the crownland.

"Three newspapers have just been started there to spread the Pan-Serb propaganda, and apparently the Hungarian government is afraid to suppress them.

A public demonstration was recently held at Agram, when King Peter of Serbia was cheered by the crowds.

Croatia lies in southern Hungary, between the Adriatic and the river Drave.

Lets Hun Blood Out of Toe So He Can Enlist

Newark, N. J., March 13.—"I thought I had a few drops of German blood in my veins, so I pricked my great toe and let them run out. Now I'm ready to take the oath."

So saying, William [illegible], an applicant for enlistment in the United States Marine Corps, removed his shoe and displayed to the astonished gaze of Sergeant Thomas Green a bandaged "little pig that went to market."

Heads Arlington Selectmen

Willis P. Howard has been chosen chairman of the Arlington Board of Selectmen and Thomas J. Robinson clerk.

NEW STATEMENT ON SIBERIA IS LOOKED FOR

Allies May Revise Views on Japanese Intervention in Far East

Continued from First Page.

United States intended for world consumption.

The effect on Germany and Austria-Hungary, where, it is reported, political and social unrest is again threatening the Kaiser's rule, will be watched closely.

NO NEWS FROM MOSCOW.

The State Department was without information from Moscow, where the Soviets met to either repudiate or ratify the German-made peace treaty. It would not be greatly surprising if Lenine and his immediate following in the Bolsheviki government forced their purpose to yield to the German demands. But, whatever the results, the elements which stand loyally for freedom of government will get the sympathy and support from Washington.

Encouragement has been taken at the White House and the State Department from delayed reports indicating a great change of feeling in Russia toward the United States. The refusal of Ambassador Francis to leave the country when the British and French diplomatic officials departed for Sweden has been the subject of widespread comment of a favorable character.

MESSAGE FROM FRANCIS.

A message from Mr. Francis received at the State Department was dated March 10. It referred merely to routine matters and made no mention of the report circulated from London that he, with a Japanese official, had been detained while traveling near Vologda. It is not believed in Washington that the Ambassador has suffered any inconvenience at the hands of the Russians.

The message said the Bolshevik itself was not wholly assured that the Soviet Congress would ratify the peace concluded with the Central Empires. The advices made mention of the determination of the government to move farther east if the German advance continued. The Bolshevik government was transferred to Moscow on March 9 and since then the advance has been less rapid.

DELAY IMPORTANT

No considerable importance was attached to this message on account of the time lost in transit.

The President's message created a favorable impression in Russian circles in Washington. It was said there had never been any question of the sincerity of America's sympathy and friendship for Russia, but that the statement had only given new evidence of this country's disinterestedness and of President Wilson's determination to hold the United States true to the high principles which he had enunciated.

The course adopted by the United States was declared in official circles to diverge so widely from the position taken by the allies as to necessitate new exchanges between all governments associated in the war against Germany. The point was made that the allies had apparently abandoned Russia to whatever mishaps might befall her.

Premier Lloyd George on January 5 declared that "if the present rulers of Russia take action which is independent of their allies, we have no means of intervening to arrest the catastrophe."

TEN DRAFTEES ARE TO BE SENT TO TEXAS CAMP

Milford, March 13.—Orders have been sent to ten men in the [illegible] division draft list directing them to report next Tuesday to be sent to Camp Kelley in San Antonio, Texas, for service in the aviation branch.

One goes as a chauffeur and the others as machinists.

Those ordered to report are George H. Lally of Milford, Carl Lind of Ashland, Joseph A. Fagnin of Bellingham, William Lawless of Blackstone, Howard F. Celley of Milford, John Ryskes and Malbraina Miller of Blackstone, Ernest A. Nash and Robert H. Butler of Bellingham as machinists and George H. Melrose of Bellingham as a chauffeur.

Russian Revolution Stirred Europe a Year Today

A year ago today—March 13, 1917—Russia freed herself from the tyranny of Czardom that had oppressed her for centuries. A brief chronology of the momentous week follows:

March 8—Thousands of munitions workers in Petrograd strike.

March 10—Troops are ordered to fire on strikers and demonstrators, but refuse to do so.

March 11—Two regiments revolt. Troops take possession of fortress of SS. Peter and Paul.

March 12—Practically the whole Petrograd garrison revolts, forming citizens' army. Duma meets. President Rodzianko says:

"The hour has struck when the will of the people must prevail."

March 13—Czar's ministers are arrested and flag of revolution is raised on government buildings. Between 2,000 and 2,500 killed. Only four casualties in Moscow, where rebels win sweeping victory.

March 15—Czar Nicholas II abdicates.

NEW DEMAND FOR PEACE IN AUSTRIA

Continued from First Page.

opposition of the proletarian peoples. We demand:

1—"A peace immediate, general and democratic with complete disarmament, with international guarantees and assurances for a free development of all nations, great and small.

2—"Full recognition and security of the complete and freely applied rights of peoples to self-determination, especially in the question of knowing if they desire a free state, and in which form this state should be established.

3—"We ask for our State nothing that belongs to another nation and does not belong to our nation. We demand only that our state should consist of the territories inhabited by compact masses of our people, presenting no interruption of the continuity of Serbs, Croats and Slovenes.

4—"The sea, and especially the Adriatic Sea, must be free."

In Germany the Socialists are shown to be condemning intervention in Finland as openly as they opposed the [illegible] peace agreements forced upon Russia.

SECRET MANIFESTO.

A cable from Berne stated that the Berlin Vorwaerts on March 5 disclosed increased anxiety over the German policy as regards the Baltic provinces. Other newspapers, including the Lokal Anzeiger, charged editorially that the treatment accorded Lithuania and Courland were flagrant violations of the stipulations of Brest-Litovsk.

The promise made to the population of Austria of additional food supplies through the Ukraine peace treaty has not been fulfilled, with the result that disorders have been renewed.

POST BELLUM TRADE WARNING IS SOUNDED

A period of the most intense and highly specialized warfare the world has ever seen will follow the present world conflict, according to Ansel B. Clark, district manager of the United States Bureau of Foreign and Domestic Commerce.

Mr. Clark spoke at the March meeting and dinner of the Boston Credit Men's Association in Young's. He also stated that an important reason for the war was the fact that Germany was being defeated in the contest for foreign trade.

The speaker warned American business men to prepare for fifty years of commercial conflict. He said that one-third of all the gold in the world is in the United States and that Congress is now working on several bills which will benefit foreign trade, notably the bill relating to a national trademark.

Speaker Channing H. Cox of the Massachusetts House urged Americans to do their part in winning the war.

Other speakers included Essex Abbott, chairman of the House Judiciary Committee, and Sergeant A. H. Warwick of the 20th Canadian Overseas Battalion.

The War in Europe

By ANTHONY ARNOUX,
Famous Writer on Military Topics.

It may be assumed that after the Soviet Congress has determined whether or not to confirm the peace treaty recently negotiated between the Petrograd government and the Central Powers, Japan will make up her mind definitely as to her course in Eastern Siberia.

In the meantime the statement of the Japanese Prime Minister settles it definitely that up to the present time no Japanese troops have been landed at any point on the Siberian coast or have entered Siberia from Manchuria.

The Soviet Congress was expected to meet yesterday, but up to the time of writing no word has come to us concerning its proceedings. Probably tomorrow we shall be flooded with the usual contradictory rumors, out of which the truth will finally emerge.

If, as is probable, the congress eventually approves the treaty, the center of interest will then shift to Japan.

Mr. Lloyd George is at least faithful to his friends and supporters. Yesterday for the first time, as far as one recollects, a British Prime Minister defended officially on the floor of the House of Commons a group of owners of newspapers against the attacks of members of that House. Curiously enough, too, two of the three men in this group bore the same surname prior to their elevation to the peerage.

60 AIRCRAFT IN RAID.

The German raid on Paris night before last was the largest so far in the war in point of the number of machines used, sixty apparently taking part. Many did not reach the city itself, the French defence being too strong. Four of the attacking machines were brought down, according to the French report, which also states that several houses and other buildings were damaged, but gives no details of these damages or of the casualties.

On the western front the activity in raiding continues, and, according to the bulletins, artillery fighting seems on the increase, particularly in the sectors on both sides of Rheims and on the north front of Verdun.

Austria has received 756,000 tons of cereals and Germany 650,000 tons from Rumania since the occupation of that country. In an ordinary year, under peace conditions, Rumania has about three million tons of cereals available for export.

Again the British under General Allenby have made a slight gain on the road from Jerusalem to Nabulus, in Palestine.

Nothing of special importance took place yesterday on the Italian front, where the tuning up does not yet seem to have begun.

TO BECOME PRIME MINISTER.

Marghiloman will shortly become prime minister of Rumania, it is reported. It will be remembered that this gentleman was in favor of Rumania's remaining neutral, from the beginning of the war.

Spitzbergen, of all places in the world, has suddenly become a center of interest. The British government is being urged to annex this group of islands, which are said to contain considerable coal and iron deposits, on account of a reference or alleged reference to them in the treaty between the Germans and Bolsheviki. Great Britain is stated to have a claim to them dating from the time of James I. Usually the islands have been considered to belong to no nation. There are no settled inhabitants but Russian and Swedish hunters visit the coasts for seal skins and wild fowl. Of late years the islands have been more or less frequented by mineral prospectors.

FILE CHARGES IN FIGHT FOR MRS. SHAPLEY

"Inhumanly Treated" at Westboro State Hospital, Says Petition

A petition just filed with the Norfolk Probate Court for the release of Mrs. Sarah Chandler Shapley of Newton from Medfield State Hospital is accompanied by charges that Mrs. Shapley was "inhumanly treated" at Westboro State Hospital during her last period there from January 11 last up to March 5.

Mrs. Shapley was at Westboro, the petition alleges, from October 21, 1915, to April 6, 1917, and from January 11, 1918, to March 7, 1918.

The petition for the release of Mrs. Shapley from Medfield State Hospital was filed by Robert W. Renfrew of Newton as "next friend" of Mrs. Shapley. It is returnable at Dedham on April 2.

The petition also alleges that Mrs. Shapley is the victim of conspiracy against her liberty and her estate.

Mrs. Shapley is the widow of George H. Shapley. In June, 1917, she was allowed by Judge Braley of the Supreme Court to leave Westboro State Hospital on condition that she go to the home of her sister at Old Orchard, Me., and not return to this State without leave of the court.

SUIT FOR DEATH IN AUTO ACCIDENT IS SETTLED

Milford, March 13.—An entry of judgment for neither party has been filed in Superior Court in Worcester in the suit bought by Mrs. Flora J. Johnson of North Grafton against Edward B. Martin, a Milford chauffeur.

Action was one in which the plaintiff sought to recover because of the death of her husband, James H. Johnson, who was killed about two years ago, according to allegations of the plaintiff, by an automobile of the defendant. Settlement of the case has been pending for some time. Johnson was a prominent resident of North Grafton.

SAY MINISTER REFUSED TO RAISE FLAG

Waldron Also Quoted at Sedition Trial as Uttering Slur on Patriotism

Burlington, Vt., March 13.—Several witnesses testified today at the trial of the Rev. Clarence H. Waldron of Windsor, accused of seditious utterances, that he had told them God had called the Kaiser to start the war and that there was no use in opposing him.

William B. Tuxbury of Windsor, chairman of the second Liberty Loan committee of that place, said he had asked Mr. Waldron to hold a special Sunday service in connection with the loan, as President Wilson had requested of the churches. Mr. Waldron replied, Tuxbury said, that a Christian had no right to fight in the war. He declined to decorate his church with the flag, to permit the audience to sing the "Star Spangled Banner" or to give an address on the loan, according to Tuxbury's testimony. The witness said that Mr. Waldron offered him a pamphlet to explain his views on the war.

"CALLED BY GOD."

Miss Nettie D. Williams, for eighteen years clerk of the Baptist Church at Windsor, said that Waldron had told her that the Kaiser was called by God to begin the war and that it was no use for the United States to oppose him.

The Rev. Frank Ward, a retired clergyman of Windsor, testified that he had attended a Sunday service with his wife, at which Mr. Waldron had said, "To hell with patriotism."

A. K. Hall, selectman of Windsor, testified that the clergyman had given him a copy of a pamphlet, "The Word of the Cross," which has been introduced in evidence.

TO SLAUGHTER YOUNG MEN

Mrs. Aaron Skinner testified that at a Thursday evening prayer meeting Mr. Waldron had said when she asked why God didn't strike the Kaiser dead that the Kaiser was called by God to win the war, and that he would win. Waldron continued, she said: "They will take the cream of our young men over across to be slaughtered, when they don't want to go, under the name of 'patriotism.' If this is patriotism, then I say, to hell with it."

H. B. Rycher of Windsor testified that he had heard Mr. Waldron say that no Christian could or should fight. Sherman Evarts testified that the Rev. Mr. Waldron had sent out a number of pamphlets, entitled "The Word of the Cross," and that one bearing his signature had been received by Evarts' niece. Evarts said that Waldron had told him it was useless to oppose the Kaiser.

Ella E. Conomy says:

"The best meeting-place in town. Listen!

"I doubt if there's a woman living in Boston having as many women relations nearby who has them so widely scattered in various directions as I have.

"There's Sister Susan, who settled down in Belmont; there's Aunt Anna, who has always lived in Dedham; there's Cousin Carry, who thinks there's no place like South Boston; and in West Somerville, I have a whole settlement of relatives.

"Well, every now and then two, three and even four of us have occasion to meet in town. And it's because we've hit upon such a good meeting place, convenient to all, that I'm telling you about it—Filene's station in the Tunnel.

"Sister Susan takes the Cambridge Subway; Anna, the Elevated at Forest Hills; Cousin Carry, the new Dorchester Tunnel; when my West Somerville people come, they take the Elevated from Sullivan Square; as for myself, I live uptown and, at Park Street, skip into a train from Cambridge—and there we are—all landed right in Filene's station though we live in four different directions.

"On stormy days we have the comfort of coming all the way under cover and avoiding wet feet."

Filene's Automatic Bargain BASEMENT

Six big reasons why you should be here early Thursday morning:

Good voile elaborately trimmed **waists, $1**

Good quality voile trimmed up rather elaborately with Val. laces and embroidered organdie panels. Also a few of batiste, semi-tailored, with smart striped collars and cuffs.

$1

Plaid skirts $2.95

$2.95

Good color combinations in novelty plaids. The model gathered at back, belted and having novelty pockets. Also pleated skirts of navy or black panama. Women's and misses' sizes.

Slip-on sweaters $2.35

$2.35

[illegible] style, sleeveless slip-on sweaters, [illegible] yarn, fancy weave—turquoise, rose, salmon.

Muslin gowns 50c

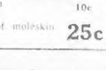
50c

[illegible] gowns, round or square necked, embroidery trimmed yoke.

Automatic plan:

All goods here must sell at first prices or come down automatically 25% after 12 selling days, 50% after 18 selling days, 75% after 24 selling days. Goods given away after 30 selling days.

480 leather pocket-books 10c



10c

Single flap style with back straps.

Also a small lot of moleskin bags **25c**

Hundreds of other bargain lots not advertised

ANNOUNCEMENT

By the Retail Dry Goods Merchants
of Boston
To Their Many Patrons

Boston merchants—and those of other cities—are constantly being called upon by the Commercial Economy Board of the Council of National Defence to assist the government in prosecuting the war by releasing equipment or materials for government service.

The government is now asking that man and motive power be conserved by restricting the number of deliveries of retail purchases.

We willingly respond to the government's appeal.

In keeping with this request the Retail Trade Board has made the following ruling:

Beginning Monday, March 18, There Will Be But One Delivery a Day in Boston Proper or Its Suburbs . . . .

We believe the patriotic source and purpose of this change will assure it a hearty acceptance on the part of all who are affected by it.

Retail Trade Board

Boston Chamber of Commerce

WANTS STATE TO OWN AND OPERATE FLEET OF COAL CARRIERS

START JOB NOW, SAYS MARTIN

Warning of Trouble Next Winter Called a Sign of Weakness

"The warning given recently to the people of New England, that we are liable next Winter to experience a like or worse coal shortage here because of transportation difficulties and other reasons, is the most stupid and glaring example of lying down on the job ever presented to the people of this community," declared John J. Martin, president of the Exchange Trust Company, in a speech at the Crawford House before the members of the Massachusetts Real Estate Exchange.

"There must be no repetition of the events of the past few weeks," he said. "Any suggestion to the contrary is a confession of plain stupidity and inefficiency, and instant measures should be adopted to assure the people of New England a square deal, at least. What coal does come should be equitably distributed.

ARRANGE SOME PLAN

"It would be well for the members of this exchange to go on record as demanding the immediate arangement of a plan whereby every person may know at least what to expect. Even today people are writing and telephoning to coal dealers everywhere, trying to get coal to keep them from freezing.

"I know one particular case of a widow with two daughters living in Dorchester. For fifteen years this woman, who is over seventy years, has been buying her coal from one of the biggest dealers in Boston.

"This old-fashioned lady has an aversion to owing money, so she has always paid cash for her coal. This Winter she telephoned for her coal and was asked by the dealer if she had a charge account.

"She replied that she did not and did not want one—she preferred to pay cash.

"Then we can't send it to you," was the answer. "You are not a regular customer."

"The old lady finally found a dealer in Allston who would sell her a half ton of coal if she would send for it. He didn't know where she could get somebody to come for it, that was up to her. She paid only $4.60 for the coal, but it cost $5 to haul it. That coal went long ago.

SHE TRIED EVERYWHERE.

"She has telephoned to dealer after dealer. Some do not answer. Others cannot supply coal. One was insulting. It has been suggested that she go in and stand in line at the office of the fuel commission, get a card, and then she can get a bag of coal every other day—if she goes after it. She hasn't been able to get to the corner store for weeks.

"Now, that is not by any means a hard case. The old lady is very brave and patriotic. She is a Civil War widow. She had $100 in the bank. She put it all into a Liberty Bond. She got her pension at 9 o'clock one morning and by 10 had bought another Liberty Bond. Then she bought six on installments, going without clothes and shoes to do it.

"She knits for the soldiers and praises every government effort—even the fuel commission. Shouldn't something be done to prevent thousands like her going through that and worse next Winter?

DO THE ORDERING NOW.

"The remedy is this: Do not ask people to go after their coal with a card. The card is as hard to get as the coal. Arrange for the Fuel Commission to start accepting orders now, by mail, with advance payment enclosed, for next Winter's coal supply.

"Let no dealer send coal to anyone. Let it all be sent through the commission. Number your orders and fill them in turn and deliver the coal through the dealers. Such a plan is short, sweet and effective. Why not try it?

"Some such plan as this would settle the problem of distribution. There remains the question of transporting the coal here. Coal is as necessary to the life of the people as is water. We spend millions of dollars bringing a steady supply of water to our cities. Why shouldn't the State take a hand and own its own coal-carrying system?

"The Massachusetts Real Estate Exchange would do well to cause to be introduced into the Legislature a bill authorizing the State to start immediately building and purchasing coal barges and tugs to bring coal here. The transportation of coal should be permanently a State-owned proposition.

"Let us get busy and do something. Don't talk about it. Do it."

BOY, 13, HURT WHEN HEAD STRIKES SPOUT IN FALL

Joseph Barlanti, thirteen, of No. 64 Porter street, East Boston, is at the East Boston Relief Station with a severe laceration of the scalp and concussion of the brain. The boy slipped and fell, his head striking a water spout.

SPECIAL NOTICE.

BELL-ANS
Absolutely Removes Indigestion. Druggists refund money if it fails. 25c

WOMAN CAPTURES HONORS AT THEOLOGICAL SCHOOL

Myra B. Wilson, only woman in graduating class of School of Theology at Boston University. Miss Wilson, daughter of a retired minister, will herself enter the ministry.

Myra B. Wilson, the only woman graduate this year from the School of Theology of Boston University, was awarded the honor of having delivered the best address at the seniors' class day exercises at the college.

Miss Wilson is the fifth woman to graduate from the school. She has an excellent record for scholarship and is considered one of the leaders of her class.

She will enter the ministry.

Miss Wilson is a graduate of Smith College, class of 1914. Her father is a retired minister and lives in Andover.

WINTER, VANISH! THANK THE OLD GROUND HOG

His 6 Weeks of Added Slumber Will Be Up Saturday and Today Is Propitious

Oh joyful news!

The Ground Hog is preparing to drive Old Winter away.

His six weeks of added sleep will be up next Saturday.

Even today there were advance signs that Winter is on the skids.

It was back on Saturday, February 2, that the Ground Hog came out of his long Winter sleep and looked around to see if he could detect his shadow.

The old saying has it that if the Ground Hog sees his shadow on Ground Hog day he ducks back into his hole for six weeks more, for he knows Winter will last that much longer.

Apparently the Ground Hog saw the darkest kind of a shadow, for there was plenty more Winter. If he saw no shadow, then he's a villain and a liar.

But anyhow, the six weeks will expire next Saturday. Even the Ground Hog can't slap any more Winter on us.

It looks like the beginning of the end of one of the worst Simon Legree Winters on record.

Then hurray for the robins, for the flowers that bloom in the Spring tra-la and Easter hats.

LYNN SHOE LASTERS' STRIKE IS PREVENTED

Plans of the Lynn shoe lasters to strike have been checked by an injunction issued by Judge Jenney of the Superior Court at Salem. This forbids members to strike or to interfere in any way with Albert M. Creighton, a shoe manufacturer and vice-president of the Lynn Shoe Manufacturers' Association. Creighton brought a bill in equity against Lasters' Local, No. 1, naming 18 individual lasters. The bill alleges that on September 19 of last year the Shoe Manufacturers' Association and the lasters entered into an agreement whereby conditions were to be adjusted for three years, and that the lasters have now threatened drastic action if prices are not revised promptly in the union wage scale.

CHELSEA HOSPITAL PLANS BENEFIT TO SWELL FUND

Arrangements are being made by the Rufus S. Frost General Hospital Aid Association of Chelsea for a benefit to be held in the Broadway Theatre, Broadway, Chelsea, Wednesday, March 20. The proceeds will be devoted to the hospital fund. The committee in charge comprises Mrs. Richard Hunt, chairman; Mrs. Walter S. Wadsworth, Mrs. Francis R. McClintock, Mrs. George H. Atkins, Mrs. Grenville S. Bell and Mrs. Frank S. Garrett.

Gives Last of Lectures

The last of a series of three lectures, under the auspices of the Home Economics department of the Cantabrigia Club of Cambridge, today, is by Miss Alma G. Halbour, who speaks on "Household Management."

FIND RUNAWAY GIRL IN SNOW, EXHAUSTED

Was With Chum from East Boston, and Two Boys—Caught in Nashua

Nashua, N. H., March 13.—Two runaway East Boston girls are under the care of the police matron here and two boys are detained as the result of an escapade in a vacant house on the outskirts of the city. The girls told the police they were on their way to Hollis, where they expected to stay at the camp of a Boston man.

The boys, both fifteen, are Alton W. Wood of No. 185 Washington avenue, Chelsea, and Francis Kennedy of No. 68 Central avenue, Revere. Their arrest was the result of a complaint of a woman who saw them enter the house with the girls, and notified the police the next morning.

When the police found the quartet, they were on the road to Hollis. One of the girls was exhausted by the cold and was lying in the snow. Taken to St. Joseph's Hospital she told the police that her mother was ill in a hospital and that her father abused her, so she went away. The other girl was her chum. Neither was booked.

Word was sent to the parents of the boys and girls through the Boston police.

TOMPKINS IS ADDED TO WATERWAYS COMMITTEE

Washington, March 13.—Calvin Tompkins, former dock commissioner of New York city, and N. J. Sanders of New Orleans, manager of the Leland Steamship Lines, have been added to the Inland Waterways Committee of the railway administration, it was announced by Railways Director McAdoo today.

The committee is conducting an investigation to determine to what extent various inland waterways can be used to relieve the burden placed upon the railways. It was said that its preliminary reports probably would be made public within a few days.

General William Black, United States army engineers, is chairman of the committee, other members being Colonel Charles Keller, United States engineers, G. A. Tomlinson, Duluth, and Walter S. Dickey, Kansas City.

YOUNG SCHOOL FUGITIVE WAS ONLY HOMESICK

An "acute case of homesickness" was the diagnosis made today by Mrs. Harry Goodhue of No. 56 Fayerweather street, when she learned that her 11-year-old son Daniel had tried to run away from a private school at Old Point Comfort, Va., where he was a pupil. Daniel hid under the seat of a train and was not seen by the conductor. When he changed cars, however, a policeman spied him. Daniel told the policeman that he was homesick and was going home to his mother. He had only thirty cents in his pockets. The policeman returned him to school.

ROXBURY CARS LACK BRAKES, SAYS DWYER

Charges Lives of Passengers Are Imperilled by Neglect to Make Repairs.

Several lives were endangered at the Broadway station of the South Boston tunnel when power trouble caused a serious tie-up. Many narrowly escaped being pushed off the platform by the crowd which filled every inch of available space. Incensed at the continued delay of the train schedules the crowd became unruly and hints to "smash up the place" were heard, forcing the special railway officers to summon police aid. Officers from various stations were rushed to the scene. At the South Station a similar scene occurred. Train service was delayed twenty-five minutes.

That residents of Roxbury are forced to travel under dangerous conditions on cars of the Boston Elevated Railway because 60 per cent. of the cars in operation in this section are without air brakes is charged by Representative William F. Dwyer who represents Ward 14.

"Conductors and motormen have told me that they were afraid to run certain cars operating in Roxbury. They said they were not afraid for themselves but for the people who crowd into these cars as 60 per cent. of them are without air brakes, and the brakes of the rest of them are deficient.

"They declare that this figure is a very conservative estimate and that an investigation of the cars which run through Roxbury would show that the percentage is much larger."

SERVICE "INDECENT."

Characterizing the Charlestown service as indecent, Representative John P. Mahoney of Charlestown declares the time for immediate action has come.

"When women and girls hesitate to ride on Elevated cars because of the indecent conditions it is time for action," declared Representative Mahoney. "This is the condition in Charlestown. The cars are terribly crowded and the service is woefully inadequate. Charlestown is only regarded as a transferring point by the Elevated officials and they give very little attention to it.

ASKS PUBLIC OWNERSHIP.

"That is the reason for my belief that the quicker we get public ownership of the road the quicker we will get good service. In the meantime there should be immediate action to make conditions better."

Roxbury citizens are up in arms at the service they are getting, according to Representative Dwyer.

"Roxbury is only an incident in the service of tre Boston Elevated," declares Representative Dwyer. "It is merely because cars are passing through Roxbury on their way to somewhere else that we get any service at all.

"If that statement sounds extravagant to the ears of Elevated officials, what will they say to the admission of a conductor made to me that he collected 200 fares on a car before reaching Roxbury on the way from Brookline village.

"And when this car got into Roxbury of course it was overcrowded. That is the condition of practically every car coming or going through this section. Roxbury is only a by-product of Elevated service. But the by-product is a pretty good sample of the whole.

SQUARE-WHEELED CARS.

"I had always thought that cars had to have round wheels to be able to run on tracks at all, but I am cured of that strange notion. Every day in Roxbury you can see cars, scores of them, that are running on flat wheels. It isn't necessary to see these cars you can hear them coming for blocks.

"It is because someone is riding to or from Allston, Chestnut Hill or the Reservoir section that we manage to get on a car. In the Parker Hill district, which I represent, there is a large residential district, one of the largest in Boston and five large hospitals.

"Of course hundreds of people come from out of town to visit sick friends or relatives at these hospitals, but I don't think they ever catch the train they set out to get.

"The district is dependent entirely upon the Tremont street, Roxbury Crossing line, running from Roxbury street to Dudley street. The other cars passing through this district are overcrowded long before they reach Roxbury at all.

LONG WAITS.

"Waits of twenty to thirty-five minutes are every day occurrences. Five or six cars running past without stopping evoke no comment. It happens every day because the cars are so overcrowded that there is not even standing room for one more passenger.

"The Sunday service, too, is bad. Many people attend the Roxbury Mission church because it is a famous church. But there are not cars enough to take the people home.

"The service was much better a year ago than it is today. Then we had a shuttle car that ran from Dudley street to the Junction of Tremont street and Huntington avenue. But that is gone now."

TRAINS AN ALLIGATOR TO BE AN ARMY MASCOT

A live alligator, twenty-nine inches long, was one of the trophies Lieutenant Chester Ricker of the quartermaster's department of the northeast brought back with him from Camp Joseph J. Johnston, Jacksonville, Florida. Lieutenant Ricker will train the alligator for a mascot and take it with him to his new charge at the Nixon Nitration Works in New Jersey.

WORCESTER STREETS TOO TEUTONIC FOR RESIDENTS

Worcester, March 13.—Because they consider the titles too Teutonic, residents of Berlin and Bismarck streets are planning to petition the City Council for a change of names of these thoroughfares.

People on Berlin street would like to have the council adopt Wheaton avenue, in honor of Corporal Homer Wheaton, who was killed in action several weeks ago.

REDUCE FIVE GENERALS AS UNFIT

Big Army Shakeup as Prelude to Speeding Up Fighting Force

By International News Service.

Washington, March 13.—New orders have gone forth to speed up the sending of troops to France.

In consequence the National Army, made up of men of the selected draft, are to be dispatched to Europe as fast as ships are available to transport them.

Paving the way, the War Department announces the beginning of a widespread shake-up in the commanding generals of the selective troops.

No general officers are to be sent "across" that are unfit to stand the rigors of service at the front. As a result seven general officers, including five division commanders, were named by Major-General Peyton C. March, acting chief of staff, as having failed to meet the physical requirements. They are to be returned to their grades in the regular establishment, relieved of their commands with the National Army, and assigned to stations on this side of the Atlantic.

THOSE WHO WILL NOT GO.

The officers affected are:

MAJOR GENERAL RICHARD M. BLATCHFORD, to brigadier general, commanding Department of Panama.

MAJOR GENERAL EDWIN ST. J. GREBLE, to brigadier general and relieved of command Thirty-sixth Division, Camp Bowie, Tex.

MAJOR GENERAL CHARLES G. MORTON, relieved from command Twenty-ninth Division, Camp McClellan, Ala.

MAJOR GENERAL EDWARD H. PLUMMER, to brigadier general, and relieved from command Eighty-eighth Division, Camp Dodge, Iowa.

MAJOR GENERAL WILLIAM H. SAGE, to brigadier general, relieved from command Thirty-eighth Division, Camp Shelby, Miss.

MAJOR GENERAL THOMAS H. BARRY, relieved from command Eighty-sixth Division, Camp Grant, Ill., and assigned to command the Central Department, Chicago, Ill., relieving Major General W. H. Carter, U. S. A., retired.

MAJOR GENERAL WILLIAM A. MANN, to brigadier general, commanding Eastern Department, New York.

RANK WAS TEMPORARY.

The reductions in grade to brigadier-general is due to the fact that all of the officers in the list, with the exception of Generals Barry and Morton, were holding their higher grades only for the period of the war and by virtue of the fact that they were assigned to the National Army.

Major March, announcing the action taken, made it plain that it was but the beginning of a general weeding out from field commands of the physically unfit.

Henceforth no general officer is to be sent to the front who fails to pass a rigid physical test. And all general officers now abroad, on inspection tours, including Major General Leonard Wood, it was indicated, will be required to return home to take the tests.

NO PROTESTS ARE MADE AGAINST 5-MILE CLOSING

Washington, March 13.—A phenomenon is disclosed as a result of Secretary Daniels' drastic order closing the saloons within a five-mile radius of permanent training camps, which goes into effect Saturday, March 16. Not a single organized protest has been received by the department against the enactment of the law. The only movement that could be classed as one was the reception of a committee of Annapolis saloon men, headed by their Congressman, which asked for further time in order to close out their business.

So far as is known, there is but one brewery affected by this order. The owner asked if the order affected the sale to private families. He was informed the brewery would have to close.

ROOSEVELT DELIGHTED AT HONOR FOR ARCHIE

By International News Service.

Oyster Bay, N. Y., March 13.—Col. Theodore Roosevelt was as happy as a school boy today when informed over the telephone that his son Captain Archie Roosevelt had been decorated in France for gallantry in action.

"That's bully!" he shouted. "I sure am delighted."

Captain Roosevelt was decorated with the Croix de Guerre by a French general. Just how young Roosevelt won the decoration is not known.

Colonel Roosevelt also stated that it was the first word he had received of his son in a long time.

PICKPOCKETS WORKING IN ELEVATED CRUSHES

The police today began a crusade against pickpockets working on Elevated trains and surface cars and on crowded station platforms during the rush hours of the evening. It is said this gang make all-night lunchrooms their headquarters. The police have found a number of empty pocketbooks behind radiators and chairs in these places.

AERIAL OFFICERS AT NAPLES DISMISSED

Rome, March [illegible] The aerial defence command [illegible] Naples, Foggia and Termoli ha[illegible] dismissed for failure to take [illegible]ective measures **against Austro-German aviators last Monday morning when a raid was made, according to an announcement made here today.**

MILLIONAIRE MAYO WEDS LOIS WATERBURY

Lois Waterbury Dudley, for years known as Mayo's wife under the name of Dudley, who has been legally married to New Haven man.

Virginius T. Mayo, wealthy New Haven manufacturer, whose involved matrimonial affairs startled the country a few years ago, has married Lois W. Waterbury, one of his former stenographers.

With Miss Waterbury, Mayo lived in Brooklyn for several years under the name of Dudley.

Mayo and Miss Waterbury were married by a justice of the peace. They refused to discuss their affairs and left in Mayo's limousine immediately after the marriage was performed.

The ceremony consummates the most devout wish of the woman who for years has been uncomplainingly devoted to Mayo. At the darkest period in his career, when as the result of the suicide of one of his stenographers his latest wife started divorce proceedings and other wives appeared almost daily, Miss Waterbury said: "Would I marry Mr. Mayo if his wife divorced him? How silly. Of course I would. That would be the great happiness, I fear, ever to come true. I love him with all my heart and would marry him tomorrow if I could."

The trail of thirteen women and children are known or alleged to be tangled up with the remarkable domestic career of Virginius Mayo.

HERO OF TRENCH RAID BAKER'S ORDERLY

By HENRY G. WALES.

International News Service Staff Correspondent.

With the American Army in France, March 11.—Sergeant Patrick Walsh of Detroit, who recently distinguished himself during a German raid on the American front, has been assigned to be orderly to Secretary of War Baker during his trip in France.

During one particular raid, on March 1 on the Toul front, a German captain in command of the raiders shouted into the entrance of an American dugout:

"Come out, Americans!"

"I'm coming," replied Walsh.

He emerged with a 45-calibre automatic pistol in his hand and killed the German captain.

Walsh was among the six Americans recently decorated by the Premier of France.

ROUTED WHOLE GROUP.

The killing of the German captain was not the only exploit of Sergeant Walsh. When all of the American officers on the raided salient had been killed or wounded he took command and put a bullet into a German, dispersing a group of enemies that was trying to capture him and others in a dugout. Walsh thus saved the outlook that had been intrusted to his keeping.

Walsh has seen thirty years' service under the Stars and Stripes. He had an opportunity for retirement before coming to France, but spurned it. He wears his bronze medal modestly under his trench coat, and when his companions seek to "kid" him and ask him why, he invariably replies: "Oh, I'm chilly."

HUN TRENCHES DESERTED.

On Monday morning a platoon of Americans on the Lorraine front east of Luneville entered the same German positions that had been raided Saturday night and found them still evacuated. The reconnaissance had been made to ascertain if reports that the enemy had retired from its front line were true.

Unperturbed by any bombardment and unprotected by any barrage fire, the American detachment crossed "No Man's Land" and traversed the lanes through the German barbed wire unmolested. Not a shot was fired at them. The doughboys reconnoitred a considerable distance along the advanced lines and even penetrated the positions to a certain depth, without encountering any Boches. They then returned to their own lines without having sustained any casualties.

It is believed the American raid on the Toul front on Monday morning forestalled a contemplated incursion by the enemy.

During the night and again at 5 o'clock Monday morning the Germans put down a heavy and destructive fire such as usually precedes an infantry attack.

American batteries came into action, practically overwhelming the enemy's fire. Our bombardment lasted from 4:30 until 7. Although no attempts were made and the enemy's first lines were deserted, the American raiders saw much material evidence of the destructive work of our artillery. Dismembered bodies and human arms and legs were scattered about.

The Hun gunners showed some confusion and delay in switching from the regular bombardment to barrage fire, and their guns were proved very ineffectual.

Later in the day the boches threw some gas shells into the American advanced lines.

FAKE CAMOUFLAGE SUIT.

An American patrol which was scouting in "No Man's Land" picked up and brought in a sniper's "camouflage" suit and steel gauntlet which had evidently been discarded when the situation became too hot for him. The suit was made of netting and straw, with a wig of straw. It gave the appearance of a scarecrow to an American sergeant who tried it on.

There was considerable air activity Monday, the observers reporting that the Germans had evidently evacuated the first-line trenches raided by French and American troops on Saturday night. Except for a few German patrols passing through the advanced trenches, no enemy troops were sighted.

During the past fortnight the Lorraine sector has been one of the most active on the entire front. About 10,000 shells have been thrown daily by each side. Prior to that it was one of the quietest.

PEARSON ASKED MEN TO HELP WILSON

Issues Statement Explaining the New Haven Efforts to Aid Government Control

President E. J. Pearson of the New Haven Railroad, in a statement issued in connection with the announcement that Federal agents have transmitted to Washington evidence and affidavits regarding an alleged conspiracy on the part of the railroads to discredit government operation, declares that on February 18 he sent out an appeal to New Haven employes to give their best services to the government.

Agents of Director-General McAdoo are now making an investigation of the alleged conspiracy in Rhode Island, where Federal agents say trains have been subjected to unreasonable delays and waste and extravagance have marked the period since the railroads have been under government control.

Mr. Pearson's statement points out that in his communication to the company's employes, February 18, he asked each man to "consider seriously whether he is giving the best work that is in him."

This letter, he points out, preceded by five days the order of Director-General McAdoo, issued February 23, dealing with the same subject. The company's executives, on receipt of the McAdoo order, held a meeting, of which Mr. Pearson wired to Mr. McAdoo.

It was the determination to make greater endeavor than ever before, and the following slogan was adopted:

"We must win, to win. We can, we must, we will, put the New Haven over the top."

Mr. Pearson's communication to the road's employes urged economy in the use of the company's time and material and called on every railroad man to "rally to the support of the President and Director General."

Federal Agents Gather Evidence of Conspiracy in Providence Investigation

Providence, March 13.—A conspiracy to discredit government control of railroads by deliberately and unnecessarily creating an enormous expense as well as thwarting every effort on the part of the government to properly operate the railroads, is the purport of charges made by Federal officials in Washington. It is learned from reliable sources that the charges are being investigated as a result of affidavits gathered by the investigators.

The cost per car for handling in yards is said to have increased from 35 cents per car to $1.11 since government control.

Overworked trains which assure a rebate in the event a train is late a certain period are said to be intentionally delayed in order to show the inability of the government to properly handle the situation.

It is further charged that train crews are paid for many hours while waiting for engines to "coaling."

The recent cold weather is said to have been the cover behind which the alleged propaganda was directed, and advantage is said to have been taken of this condition in the effort to discredit the government control.

A detailed report of the charges are said to have been forwarded to Attorney General Gregory, setting forth the dates and incidents contained in the charges.

It is charged that "overcrowded trains," one which now brings a rebate to every passenger when the trains are more than [illegible] minutes late, were delayed.

GERMANS MAY ATTACK RUSSIAN BALTIC FLEET

Copenhagen, March 13.—The Germans may be planning operations against the Russian fleet in the Baltic Sea, according to a report received here today.

There is believed to be a big German squadron in Finnish waters, while the exact whereabouts of the Russian fleet is unknown.

At last reports some of the Russian fleet was at Viborg, while other portions were lying off Petrograd.

STUDENTS MEET AT NORTHFIELD IN JUNE

[illegible] student conference at Northfield is to be held from June 18 to 24 [illegible]. Representatives from New England colleges and secondary schools will attend.

The Stradivarius

FOR the noble quality of its tone the Stradivarius stands supreme among violins. That tone is in the genuine "Strad"; it is lacking in all others.

Whatever is genuine possesses a degree of excellence never found in imitations.

The only genuine Aspirin is found in

Bayer-Tablets of Aspirin

Aspirin has been made in the United States for more than ten years. For your protection genuine Aspirin is invariably marked—every package and every tablet—with

"The Bayer Cross— BAYER Your Guarantee of Purity"

The trade-mark "Aspirin" (Reg. U. S. Pat. Off.) is a guarantee that the monoaceticacidester of salicylicacid in these tablets is of the reliable Bayer manufacture.

PROHIBIT EXPLOSIVES ON ALL TROOP TRAINS

Washington, March 13.—Carrying of explosives on the same trains with troops was prohibited in a general order issued by the War Department today.

Bread Goes Up in Providence.

Providence, R. I., March 13.—Bread will go up 1 cent a loaf here Friday morning. The one-pound loaf will be sold for 8½ cents to the retailers, who will be allowed to charge 10 cents. The pound and a half loaf will sell at retail for 15 cents instead of 14.

AGED PEOPLE'S HOME COUPLE WEDDED

George Washington, 85, and Bride, 83, Figure in Elopement

Holyoke, March 13.—A romance which has been developing in the Holyoke Home for Aged People for the last three years has culminated in the marriage of Mrs. Harret Clough, eighty-three years old, and George Washington, 85, who is eighty-five.

The return of the couple from Thompsonville, Ct., where they were married, was the first intimation the other inmates received that a wedding was contemplated, although a license had been secured some time previously.

Mr. Washington, who was formerly in the milk business, has been an inmate of the home for five years. Mrs. Clough, or Mrs. Washington as she is now, entered the institution three years ago. There are thirty-two other persons in the home and neither they nor the matron suspected that a romance was budding in their midst.

Although there was no real necessity for them to leave the home to be married, the old couple apparently desired to be wedded in private. With all the cunning of youthful lovers they made their plans and carried them out without even telling the matron.

When they returned and the matron learned of the wedding, a celebration was arranged in which all the inmates took part. This is the third marriage for Mrs. Washington and the second for the bridegroom. They will continue to reside at the home.

WOBURN BOY TELLS MOTHER OF BATTLES

Thrilling experiences are chronicled by John R. Walsh of Woburn in a letter to his mother. He describes the first battle in which the machine gun company of the 101st Regiment, of which he is a member, participated.

"I saw some great sights during the first few days at the front—airplane flights, bombs bursting, artillery shells bursting over my head. At 3 in the morning Fritz started a heavy bombardment and some of our mules got in the way of the shells, so we are minus four.

"Don't worry about me. If a fellow does what he is told to do, and uses his head a little, there is no reason why he shouldn't come out all right."

'OPERATES' FOR $150 WHILE 'PATIENT' IS SLEEPING

Fitchburg, March 13.—While taking a nap in a lunchroom Peter Gargis, a dishwasher, had a part of his stocking and underwear cut and a roll of $150 was quietly extracted from his secret hiding place, according to a story which he told the police. Albert Furialk, a chef in the same restaurant, was later arrested on a charge of larceny, it being alleged that he "operated on" Gargis. The bills were found hidden behind a refrigerator.

NEGRO EAGER TO DIE IN CHAIR AS 'MARTYR'

Confesses Attempt to Kill Man in Vindication of Colored Race

Springfield, March 13.—After making a candid confession that he intended to commit murder as an act of vindication for the colored race, Ralph E. Powell of Holyoke, 21, who shot and slightly wounded Floyd H. Polhill of this city in the machine shop of the Van Norman Machine Tool Company, declared that he was willing and eager to go to the electric chair as a martyr to the cause of negro freedom.

"The United States is sending thousands of young men to France to fight for democracy," he declared to Captain Frank W. Quilty, chief of the detective bureau. "In spite of the fact that we have no real democracy here, I wouldn't fight for the United States and would get out of this country if I could. A colored man has no show, he is kept down, not allowed to work with white men, and is persecuted.

GRADUATE OF TUSKEGEE.

Powell is a graduate of Tuskegee Institute, founded by the late Booker T. Washington, and while a student there learned the machinist's trade. He came recently from Kentucky where he found it impossible to secure employment, he said, and had hoped that New England, noted for broadmindedness, would give him a chance.

"But I can't get it," he added, "nor can any colored man get a square deal. I have been fired from two factories because of my color, despite the fact that they admitted my skill as a master machinist."

Powell went to work at the Van Norman Machine Tool Company early last week as an expert machinist, and was given a bench alongside Polhill, whom he attempted to murder. Polhill immediately protested, and he was joined in the protest by other machinists, about 200 in number.

REFUSED TO RESIGN.

The situation became so tense that the workers demanded of Powell that he resign, and, when he refused, went to the shop management and threatened to strike Saturday if Powell was not discharged. Rather than face the danger of a strike at a time when the firm is engaged in government work, the shop superintendent discharged Powell, telling him that, while he recognized his ability, it would be impossible to keep white help in the same shop with a colored man.

Powell left without a word, but admitted to Captain Quilty in his confession that he went to his home in Holyoke, secured a micrometer, traded it for a revolver, and returned to the factory, determined first to shoot Polhill, whom he claimed was the direct cause of his discharge, and to take whatever other vengeance he felt was called for.

ARCHBISHOP OF YORK LEAVES TO VISIT YALE

The archbishop of York boarded the 1 o'clock train this afternoon for New Haven, where he will be the guest of President Hadley of Yale University for the next few days.

The Primate of England was much pleased with his sojourn in Boston, he said just before he left. He thanked the Episcopal church and the commercial interests of the city for the welcome he was given.

Boston he said appealed to him greatly because it is so much like an English city. He felt that it conforms well to the traditions of St. Botolph.

Like Being Hit By Rattle Snake

Says that every time you cut or pick at a corn you invite lockjaw

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts right out with the fingers, without one particle of pain.

This freezone is a sticky substance which dries the moment it is applied and just loosens the corn without inflaming or even irritating the surrounding tissue or skin. He says a quarter of an ounce will cost very little at any of the drug stores, but this is sufficient to rid one's feet of every hard or soft corn or callus.

You are positively warned that cutting or picking at a corn is a suicidal habit.—Advertisement.

Resinol healed that skin trouble

When you think what a source of annoyance and suffering that eczema has been to me in the past three years, do you wonder I am thankful that the doctor prescribed Resinol? The very first time I used it, the itching stopped for good, and the eruption began to disappear.

Resinol Soap should usually be used with Resinol Ointment to prepare the skin to receive the Resinol medication. Resinol Soap and Resinol Ointment are sold by all druggists. *Resinol Soap helps to clear your complexions.*

'Wilson Bacon' Only Meat Now for Belgians

By International News Service.

The Hague, March 13.—Food from America is known now as "Wilson bacon" in Belgium.

A father of a Belgian family, writing his brother, says: "We are grateful for our 300 grams of Wilson bacon, which we receive once in a fortnight. We get no other meat or fat."

Scarcity of food in Belgium is becoming more acute, according to the writer, who tells of girls and boys walking many miles in the interior to get potatoes and bread for the family.

WORCESTER RAILROAD MAN KILLED BY TRAIN

Worcester, March 13.—Daniel O'Leary, fifty, was run down by a freight train while cleaning a switch at the Thomas street crossing of the Boston & Maine Railroad, and was instantly killed. O'Leary, a section hand, is survived by his widow, a son and a stepdaughter.

GORE FAVORS SUBSIDY FOR FARMERS

By International News Service.

Washington, March 13.—Possibilities of cost plus farming appeared on the congressional horizon today.

All of the indications tend to point to an endeavor to secure some sort of government subsidy for the farmer as a result of the food production hearings which are being conducted now by the Senate Committee on Agriculture.

Senator Gore of Oklahoma, chairman of the committee, is careful to question every witness representing the food producers, as to what their attitude would be towards cost plus production. Thus far the answers to the question have shown that the farmers would welcome such a movement on the part of the government.

Cantonments and shipyards have been built upon cost plus contracts, Senator Gore said today, "and since food is so necessary to the success of the war there is no reason why farmers should not be given the same opportunity."

Senator Gore has suggested that the farmers should have at least a 7 per cent. guarantee.

TOLD SHE IS A 'THEDA BARA,' DISAPPEARS

Worcester Child Believes Soldier, Takes Sister With Her to Become Movie Star

Worcester, March 13.—A soldier told pretty 15-year-old Jane Leblanc, daughter of Mr. and Mrs. Fred A. Leblanc of No. 27 Camp street, that she looked like Theda Bara. She believed it and has left home, her parents think, to seek her fortune in movieland. She took her 14-year-old sister Leona with her.

The name of the soldier who aroused Jane's ambitions is not known to her parents. They were of the belief that the girl had eloped, but when they learned of her aspirations, laid her disappearance to stage ambitions.

Jane worked in the Royal Worcester Corset Company before she left home. Last Saturday she drew two weeks' pay and has not been heard from since.

Her father said: "It is little Leona whom the older girl took away with her that we are the most concerned about. Leona was a quiet child and we never had any trouble with her, while Jane was independent and unmanageable.

"I did object to her daubing her face with paint and powder," he said. "Even when I forbade her to do this, I have since learned that she would put these cosmetics on in the hall before she left the house."

REPUBLICAN SLOGAN "PEACE BY VICTORY"

New York, March 13.—"Peace by victory not by compromised bargaining" is the war slogan of the Republican party voiced here today by Will H. Hays, chairman of the Republican national committee.

"The Republicans are firm in the belief that peace must be won by victory and not by compromised bargaining," said Hays. "They are united in expending their efforts to win the war now, and they will advocate a sane policy of solving the problems of reconstruction after the war is over."

The national chairman arrived here today to meet Republican committeemen from New England and Delaware and will attend a dinner tonight.

WINS FIGHT TO CONTROL GAS PRICES

Representative McKeon Says Companies Benefit by Defect in Law

Charging that the gas and electric lighting corporations have issued more than $10,000,000 in short-time notes without any public supervision and that one gaslight corporation has arbitrarily boosted its rates more than $500,000 a year, Representative Francis P. McKeon of Worcester, by an eloquent appeal, persuaded the House to vote for a bill to prohibit unwarranted increases in the price of gas.

The anti-gas-boost bill was filed by the United Impovement Association. It provides that a gas corporation shall not increase its rates unless approved by the commission.

The bill was reported adversely by the Public Lighing Committee. Following Mr. McKeon's fervid appeal, the House substituted the bill by a roll call vote of 120 to 97.

"It is possible, under a defect of the present law, for many of the companies in this State to increase their rates without any supervision in the public interest," Representative McKeon said.

"The Worcester Gas Light Company has increased its rates over 49 per cent, and has lowered the quality of its gas about 16 per cent.

"The Boston Edison Electric Illuminating Company has issued more time notes without the approval of the Gas Commission. That, too, was possible under the defects in the law."

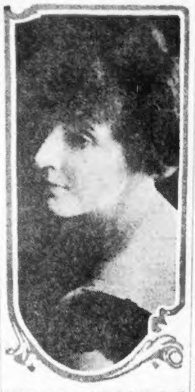
Mr. McKeon asserted that the laws which seek to regulate the gas and electric corporations are but 33 1-3 per cent. effective. He declared that the corporations profit by the 66 2-3 per cent. inefficiency of the law.

The bill has two more stages to go in the House before it reaches the Senate.

POLITICAL DEAL STORY PETERS OUT IN WEBSTER

Webster, March 13.—Webster has been all excited the last few days, with rumors of a "political deal" between one of the members of the board of selectmen and the Welfare League. It now develops that the conversations between the selectman and the league officials concern a new factory which the selectman intends to build here for manufacturing yarns or fabrics.

MRS. IRENE STERLING ALLEN, noted Maine beauty, who has been granted a divorce from **Morrill** Allen on grounds of **cruel** treatment.



WINS DIVORCE FROM PORTLAND CLUBMAN

Mrs. Morrill Allen Given Custody of Their Seven-Year-Old Son

Sporting in a pile of snow and making large snowballs which he hurled at a chum, little 7-year-old Morrill Allen, Jr., enjoyed himself outside his aunt's home, No. 210 Mount Vernon street, West Roxbury, unmindful of the fact that his mother was granted a divorce from his father in Portland, Me., and that the latter will be allowed to see him "at reasonable times."

"How are you feeling, Morrill?" queried a reporter.

"I'm all right," replied the youngster, as he moulded a handfull of snow into a ball. "Mamma and me are going to California. Do you know where that place is? I'll like that place. It's warm out there."

Mrs. Allen and her sister are known in Portland, Me., as the "beautiful Sterling twins." They were prominent in the younger social set in that city when debutantes. Mrs. Allen was granted an absolute divorce and $5,500 alimony from Morrill Allen, Sr., well-known young clubman of Portland, on the ground of cruel treatment. She was also given the custody of the boy.

In May, 1904, the Sterling twins, Irene and Athene, became brides at a double wedding at the State Street Congregational Church, Portland, Me., and the ceremony was attended by the fashionable set of that city. The latter married N. Ward Thompson, then of New York, and they now live in West Roxbury.

INVESTIGATE DEATH OF NEW YORK DENTIST

New York, March 13.—The mysterious death of Dr. Henry P. Osborne, a dentist, who is said to have been the owner of valuable property in Connecticut and New Jersey, is being investigated. Dr. Osborne, who was found dead in the doorway of his apartment, was looked upon as a recluse. His offices were handsomely appointed and offered a vivid contrast to his appartment, where he is said to have slept on the floor and cooked his own meals.

QUARTERMASTERS TO HAVE FIRE COMPANIES

Washington, March 13.—The organization of eight guard and fire companies, in addition to the regular strength of the quartermaster's corps, today. Each company will be composed of a captain, five first and five second lieutenants and 115 men, either enlisted or drafted.

CUSTOMS HOUSE EMPLOYES GET PAY RAISE

Collector Billings Gladdens Hearts of Poorer Paid Men and Women and Others

Collector of the Port Edmund Billings upon returning to his duties after a long illness gladdened the hearts of the lower paid employes in the Custom House by announcing that he had given increases in salaries to [illegible] employes totaling $20,000 a year.

The men and women given the raise were gathered in the office of the collector and informed by him that his chief concern was for the poorest employe in the service, he having in mind the increased cost of living because of the war.

There were a few exceptions not coming under the head of poorer paid employes, among them being Captain Charles R. Tucker of the Custom Guards, who is very popular with his men.

Out of sixty Customs Guards one lot was increased from $840 to $960 a year, while others received an increase of from $960 to $1,020.

Mr. Billings, in raising the guards from $840 to $960, abolished the old rating of $840 a year and in the future all men joining this part of the service will get $960 a year.

MORE POPULAR SONGS TO BE GIVEN AWAY

Next Sunday's Advertiser-American to Contain Second Group of Patriotic Tunes

So wonderful was the success of the first try at giving New England the words of some of the most popular Army and Navy songs of the day, that the editor of the SUNDAY ADVERTISER-AMERICAN is moved to try it again.

On Sunday next, therefore, a second group of songs of the Army and Navy will be distributed free of charge with the SUNDAY ADVERTISER-AMERICAN.

Most of us know the popular "tunes." Few of us can remember the words. Take your own case. Recite the "Star Spangled Banner." Stumped? Of course you are, just as you would be on "America," or almost any other song that "everybody knows."

Your own newsdealer will tell you that on Sunday last there were not enough SUNDAY ADVERTISER-AMERICANS to go around. Nine out of every ten newsdealers in Greater Boston were "all sold out of SUNDAY ADVERTISER-AMERICANS before 2 o'clock!

Here in the office, we can see the steady climb of the already stupendous SUNDAY ADVERTISER-AMERICAN circulation. It is a climb based upon merit. This Sunday newspaper is the Sunday newspaper with the punch, the Sunday newspaper which gets things done.

Order your SUNDAY ADVERTISER-AMERICAN today, and be on the safe side. All the news from everywhere, including the front line trenches, all the regular features, and songs of the army and navy No. 2.

Next Sunday.

The SUNDAY ADVERTISER-AMERICAN.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists.

Easy to Make This Pine Cough Remedy

Thousands of families swear by its prompt results. Inexpensive, and saves about $2.

You know that pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains several peculiar elements that have a remarkable effect in soothing and healing the membranes of the throat and chest. Pine is famous for this purpose.

Pine cough syrups are combinations of pine and syrup. The "syrup" part is usually plain granulated sugar syrup. Nothing better, but why buy it? You can easily make it yourself in five minutes.

To make the best pine cough remedy that money can buy, put 2½ ounces of Pinex (60 cents worth) in a pint bottle, and fill up with home-made sugar syrup. This gives you a full pint—more than you can buy ready-made for $2.50. It is pure, good and very pleasant—children take it eagerly.

You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm. The cause is the same—inflamed membranes—and this Pinex and Syrup combination will stop it—usually in 24 hours or less. Splendid, too, for bronchial asthma, hoarseness, or any ordinary throat ailment.

Pinex is a highly concentrated compound of genuine Norway pine extract, and is famous the world over for its prompt results.

Beware of substitutes. Ask your druggist for "2½ ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.—Advertisement

BUY THRIFT
STAMPS

The right corset can do wonders

Expensive alterations on clothes can usually be saved by getting the corset right. The corset should be bought first, ahead of all other clothes.

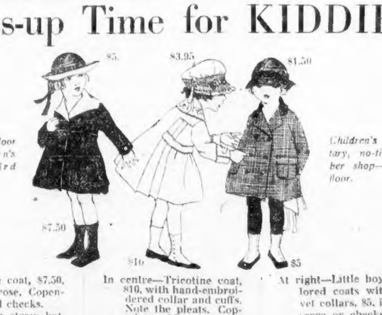
It is much better to buy a corset in a fitting-room than over a counter. Probably in nothing else a woman buys ready-made does she get as much for her money regardless of price as being fitted the Filene way.

There are hundreds of styles of corsets. Filene corset-fitters are trained to find for every woman the one particular corset that will make her look her best. Six corsets can seem to fit a woman; generally only one gives her apparent height and long, straight lines. Selecting the ONE is the whole key to Filene corset-fitting and selling.

Practically all well-known corsets are sold at Filene's, including the Nemo and the Stylish Stout corsets. Several corsets are exclusive to Filene's, such as the Grace. The Modart front-laced corset is sold by Filene's only in Boston.

(Filene's—mail orders filled—third floor)

Dress-up Time for KIDDIES



Half an entire floor for children's clothes — third floor.

Children's sanitary, no-tip barber shop—second floor.

At left—Serge coat, $7.50, in blue, rose, Copenhagen and checks. The Milan straw hat, in combination colors, $5

In centre—Tricotine coat, $10, with hand-embroidered collar and cuffs. Note the pleats. Copenhagen blue, navy and rose. The hat is $3.95 and matches the coat.

At right—Little boys' tailored coats with velvet collars, $5, in blue serge or checks. The rah-rah straw hat is $1.50.

Three Reasons why every woman says: Wonderful for blouses!

"So easy— no rubbing!"

ONCE upon a time, in the dark and Lux-less days, there were Two Kinds of Blouses. First, your Everyday Blouses. You hated those. They were homely and heavy, and plain so they could stand hard washing. No dainty colorings. No lacy trimmings. No flimsy materials. Then, your Dainty Blouses. Those you treasured, and you wore them very, very seldom and very, very carefully. When they were soiled, you sent them away to the Cleaner's, waited for them, and paid for them All Over Again!

Now, how different it is!

Every woman wears the daintiest, prettiest, flimsiest things for everyday wear. Why not, when she can wash them again and again and keep them new with never a bit of rubbing!

Rubbing ruins dainty things

Rubbing cake soap on materials, then rubbing again to get the dirt out, is the old-fashioned laborious way of washing. It was hard on you and hard on your blouses.

Try the Lux way. No rubbing! Just dipping the flimsiest blouse up and down in the wonderful rich Lux suds, then having it new and shimmering again.

Lux comes in delicate white flakes in which there is more real cleansing value than is possible in any other form of soap. You drop them into hot water and whisk them immediately into the foamiest, bubbly lather. Add cold water to make the suds lukewarm, then in goes the blouse!

Let your Daintiest Blouses be your Everyday Blouses. It's so easy with Lux.

"Quick? Unbelievably so!"

THAT is the beauty of Lux. It is so very quick and easy. In an almost unbelievably short time you can transform anything which is limp and dingy into a refreshing, dainty garment.

Who thinks of waiting, nowadays, from Monday to Wednesday for her blouse to be laundered? Never!

For blouses, Lux is wonderful. You simply pop your blouse in the warm Lux suds and have it out again after a few minutes' soaking and sloshing about in the thick bubbly lather.

Try washing your woolly sweater and your soft new blankets in Lux. You would never believe that *they* could be done so quickly, so perfectly and so easily.

Try Lux for all these things

Fine linens
Fine laces
Lace curtains
Silk hangings
Georgette, Crepe de Chine and washable Satin blouses
Chiffon blouses
Lingerie waists and dresses
Children's fine things
Babies' woolens
Sweaters
Blankets
Silk stockings
Silk Underwear
Collars and cuffs
Corduroy skirts
Chinchilla coats
Washable gloves

Lux will not harm anything that pure water alone will not injure

"Has it really been laundered? It looks like new."

SAID a Rich Girl to a Poor Girl, "I have spent a small fortune for blouses, and none of them look half as dainty as that pretty new blouse that you are wearing."

Said the Poor Girl, "This blouse is not new. I have had it for a year."

"But, my dear, it has never been laundered!"

"Oh, but it has—time and again—with my own hands. The secret is Lux. Lux simply charms the soil and dinginess away. It makes my blouse look like new every time it is laundered."

And this is the story of every woman who has ever used Lux. The Lux way of washing gives you results that you would never have dreamed possible in the old days of Vigorous Rubbing. You can have the daintiest things and have them long.

Try Lux just once

Every woman who has tried Lux is soon telling other women that she has at last found the ideal soap product for all fine laundering. Every woman tries Lux for dozens of things she never before would dream of trusting to soap and water.

Try Lux yourself. Your grocer, druggist or department store has it. Lever Bros. Co., Cambridge, Mass.

LUX Won't shrink woolens!
Won't turn silks yellow!
Won't injure even chiffons!

HAPPENINGS IN BOSTON SOCIETY

Leaders Attend Flower Show, Most Brillian of Charitable Events

By KATHARINE ALDEN.

Miss Natalie B. Whitwell of No. 15 Highland street, Milton, will return home next week after a two weeks' visit in Washington, D. C., with Mrs. Richard FitzHugh Ledyard of New York, who has a house at No. 2127 California street this season.

* * *

One of the most brilliant charitable events of the season opens today under the auspices of the Massachusetts Horticultural Society in Horticultural Hall for the benefit of the Red Cross. There will be an exhibit of flowers and an acacia tea garden. The acacias are from the greenhouse of Thomas Roland. In the garden from four until six there will be music and speaking. Miss Dorothy Forbes of No. 191 Commonwealth Avenue is the chairman of the tea garden.

* * *

Mayor Peters will open The Garden at 3 o'clock and will give an address on "The Battles of the Somme and Ypres—And Going Into Battle With the Yanks." Captain T. C. McMahon of the Irish Guards will give two groups of songs. Miss Marion Sprague [illegible] group of songs. Miss [illegible], the elder daughter of Mrs. [illegible] Bradlee of [illegible] Farm, Brookline, [illegible] Thorndike and Miss [illegible] Winslow will be the head [illegible].

* * *

Mrs. Alpheus Gest (Dorothy [illegible]), Mrs. Willard Simpkins (Augusta P. Prescott), Mrs. Lyon Weyburn (Ruth Anthony), Mrs. Augustus Thorndike, Jr. (Olivia Lowell), Mrs. Paul Courtney (Dorothy Morgan), Mrs. Robert T. S. Lowell (Charlotte Winslow), Mrs. Henry St. John Smith (Constance Wheaton), Mrs. John Hoar (Dorothy Brown), Mrs. Samuel Hoar, Jr. (Helen Warren), Miss Barbara Foster, Miss Elizabeth Bennett, Miss Barbara Russell, Miss Helen Hart, Miss Jane Peters and Miss Sybil Appleton will be on duty as waitresses, all members of the Sewing Circle and the Vincent Club.

Miss Mary Hemenway, daughter of Mr. and Mrs. Augustus Hemenway (Harriet Lawrence) of No. 173 Clarendon street, who is devoting all her time to war relief work. Miss Hemenway is a niece of Bishop Lawrence.

HOODOO FAILS TO STOP LIVE MELODRAMA

Members of "Man Who Came Back" Optimistic on Play's Thirteenth Week

By FRED J. McISAAC.

Although theatrical people are generally considered superstitious, there is no evasion or covering up of the fact that "The Man Who Came Back" is now in its thirteenth week in Boston.

Hal Ford, the manager, proudly proclaims it in his announcements, unmindful of the fact that most hotels omit thirteenth floors and room thirteen, and that half the people in the world regard the figure with distrust.

"There is nobody in this troupe who worries about the old hoodoo number when it means the thirteenth week of a run," declared Mr. Ford.

"No-o-o," agreed Etta Bryant, the blonde adventuress. "That is, if we get through the week all right."

"You're not afraid of thirteen," he asked of Henry Hull, the leading man. "I should say not," replied Mr. Hull. "I carry a rabbit's foot to protect me from hoodoos."

"I am not superstitious," announced Laura Walker, the heroine. "I was born on the thirteenth of the month. I don't like black cats, but thirteen has no terrors for me."

The amazing run of the big melodrama of the man who went to Hades and came back again wasn't disturbed when the show was moved across the street from the Wilbur to the Plymouth, and the indications are that the piece will stay here until warm weather.

RESCUES TWO CHILDREN THEN PUTS OUT FIRE

Worcester, March 13.—When Julius Jolin of No. 59 Winter street was walking in Harding street he saw smoke issuing from a window of a dwelling house. He rushed into the building and found the door of the room locked, so gained entrance by breaking a window, and found two children who had been locked in the room while their mother went to a nearby store.

He snatched a baby from a cradle and carried it to the street, then rushed back and returned with the other child. Then he extinguished the blaze.

MOUTH AND TEETH CONSERVATION

$1 WEEKLY PAYMENTS

Any man or woman who neglects the mouth or teeth is taking desperate chances with his health. Conserve your teeth—have every cavity filled—have your gums treated—put your teeth on a sound working basis. **Painless operations.**

What Federal Prohibition Really Means

> "JOINT RESOLUTION PROPOSING AN AMENDMENT TO THE CONSTITUTION OF THE UNITED STATES:
>
> *"'Section 1. After one year from the ratification of this article the manufacture, sale or transportation of intoxicating liquors within, the importation thereof into or the exportation thereof from the United States, and all territory subject to the jurisdiction thereof for beverage purposes is hereby prohibited.*
>
> *"'Section 2. The Congress and the several states shall have concurrent power to enforce this article by appropriate legislation.*
>
> *"'Section 3. This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by the Legislature of the several states, as provided in the Constitution, within seven years from the date of the submission hereof to the states by the Congress.'"*

THIS Resolution marks an epoch in a movement which has ceased to be a fight between the Anti-Saloon League and the Liquor Dealers. It is now a vital issue between two great elements of the people themselves — the radical social reformers on the one hand and the liberal-minded element on the other.

The principles at stake are too serious to admit of misunderstanding. That being true, what is the real meaning of the Federal Prohibition Resolution now pending in the Massachusetts Legislature?

It means a permanent bone-dry law for the United States.

Once the Resolution is ratified by thirty-six states, and thus made a part of the organic law of the land, any later resolution seeking to annul it could be defeated by thirteen states. It is probable that there will always be that number so aligned in the South and West, where prohibition has become firmly established as a racial or religious issue.

It means, therefore, that Federal prohibition cannot be adopted as an experiment or temporary war measure.

Once put into the Constitution, prohibition will be the law for generations to come, if not for all the time.

It means not only the closing of all saloons—it means that no hotel, club, restaurant or other place could legally serve even a glass of beer.

It means that no person could lawfully have in his own home, either through purchase or home-manufacture, any strong liquors, beer or wine, after existing supplies become exhausted.

A farmer would not be permitted to make a keg of hard cider.

It means the maintenance of a vast army of enforcement officers.

Every home in the land would be liable to search and seizure raids.

It means that once ratified by Massachusetts, this State could never reconsider or annul its action.

That is what the Federal Prohibition Resolution really means.

But there has been provided seven years in which to take action. Even should the Legislature fail to ratify the amendment during six consecutive years such action could be taken in the seventh year. **There is no need of precipitate haste in the matter.**

It is for the Legislature to decide whether this State shall be forced headlong into the most revolutionary policy that has ever confronted it, or whether the matter shall be deferred for decision to more normal times.

Drive the Liquor Habit From Your Home

Can Be Done Secretly

Physicians and druggists unhesitatingly recommend Tescum powders for the liquor habit in any form. They quickly destroy the craving and make whiskey and other alcoholic beverages repugnant. Druggists will tell you Tescum is selling better than any other remedy for the liquor habit. There is a reason for this. It is because it gives better satisfaction. One physician says: "I can stand in the door of my home and throw a stone into a neighbor's yard to whom I gave Tescum powders for drunkenness and he was completely relieved. Have also relieved a large number of other patients." A druggist reports "Tescum is having an enormous sale. It gives excellent satisfaction." A lady recently wrote: "I have used Tescum on my husband secretly and he has not taken a drink in three months." Another lady says: "I only wish I had known of Tescum before." Here is another who tried it: "After taking two boxes of Tescum I did not crave liquor." Another writes: "I don't think it's expensive at all. Just think of the thousands of dollars he has spent for whiskey. The few dollars I spent for Tescum has been worth thousands." Here is an extract from another letter: "I sent a box of Tescum to my friend, Mrs. C. M., for her to try on her husband. Hope she will be as successful as I have been, as it is wonderful. I will never tell my husband what relieved him." And so on it goes, one enthusiastic report after another. If you have a relative or a friend who drinks, just try it for a few weeks and note the marvelous change. They will soon complain that drink does not taste the same and in a short time they will stop altogether and never know the reason why.

NOTE—A leading druggist, when shown the above article, said: "Yes, Tescum is a very remarkable remedy for the drink habit. It is harmless, wonderfully effective and is having an enormous sale. I advise everyone who wishes to destroy the liquor habit to give it a trial." You take no risk with Tescum, as it is sold in this city under a steel-bound money refund guarantee by all druggists, including Houghton & Dutton's Drug Dept.

"TIZ" FOR TIRED AND SORE FEET

Use "Tiz" for puffed-up, burning, aching, calloused feet and corns.

Why go limping around with aching, puffed-up feet—feet so tired, chafed, sore and swollen you can hardly get your shoes on or off? Why don't you get a 25-cent box of "Tiz" from the drug store now and gladden your tortured feet?

"Tiz" makes your feet glow with comfort; takes down swellings and draws the soreness and misery right out of feet that chafe, smart and burn. "Tiz" instantly stops pain in corns, callouses and bunions. "Tiz" is glorious for tired, aching, sore feet. No more shoe tightness—no more foot torture.—Advertisement.

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache; no hawking, snuffling, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly.

It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.—Advertisement.

MOTHERS, DO THIS—

When the Children Cough, Rub Musterole on Throats and Chests

No telling how soon the symptoms may develop into croup, or worse. And then's when you're glad you have a jar of Musterole at hand to give prompt, sure relief. It does not blister.

As first aid and a certain remedy, Musterole is excellent. Thousands of mothers know it. You should keep a jar in the house, ready for instant use.

It is the remedy for adults, too. Relieves sore throat, bronchitis, tonsilitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of back or joints, sprains, sore muscles, chilblains, frosted feet and colds of the chest (it often prevents pneumonia).

30c and 60c jars; hospital size $2.50.

MUSTEROLE
WILL NOT BLISTER

SUFFRAGISTS TO CELEBRATE BIRTHDAY

Elm Hill League Plans Observance on Anniversary of Founding of Pioneer Mother Body

By ELIZABETH ELLAM

Thirty-two years ago a group of earnest pioneer women banded themselves together to form one of the first suffrage leagues of the State, facing ridicule, prejudice and opposition to a stand that was then bitterly contested by ninety-nine out of 100 persons. They were known as the Roxbury Woman's Suffrage League.

Their birthday party comes on March 23, and on that day, the daughter, the Elm Hill Equal Suffrage League, will honor the birthday of that mother, as all good daughters should.

"We never thought we should see the coming of suffrage for women," said Mrs. Harriet A. Burr, the president of that venerable mother league—and the only woman living today who was at that first meeting.

"We were willing to work in the hope that the coming generation might reap the benefits of our efforts. Some one had to blaze the trail down the hill—someone had to build the bridges, you know—and we were the pioneers."

The real story of the organization of that league is a record of grim determination, unflagging zeal and courage to go on, in face of all difficulties. And the honor that is to be paid at the coming meeting is the same tender, loving honor that a dutiful daughter pays with tenderest reverence, to the mother whose graying hair she smoothes with loving care, and whose faltering footsteps she guards, as that mother nears the sunset of her life.

HISTORICAL ADDRESS.

There is a regular program for the birthday party that the Elm Hill Equal Suffrage League of Roxbury will tender the Roxbury Woman Suffrage League in Norfolk House on March 23. It will consist of short historical addresses by prominent speakers. Miss Alice Stone Blackwell, president of the Massachusetts Suffrage Association, will respond for her father and mother, two of the best known pioneer suffragists of a generation ago.

Modern suffrage work and workers will be represented by Mrs. Lewis J. Johnson and there will be music and refreshments.

"It was in 1886 that the Roxbury Woman's Suffrage League was organized, a year after the Boston Equal Suffrage League came into being," Mrs. Burr explained to me, when I asked her if she would tell me a little of this pioneer organization. "You know school suffrage was granted to women in 1879 and after that there were ward city committees of women voters to look after school suffrage. I was a member for three years.

BECAME INDEPENDENT.

"In 1884 Cora Scott Pond, organizer, assisted by Anna Howard Shaw, now of the National Party, but then preaching in a little church on Cape Cod campaigned to organize suffrage leagues. The Roxbury League, organized a year later than the one in Boston, was designed to be affiliated with it, but later became independent. Julia Ward Howe was the president of the Boston Equal Suffrage League.

"Miss Harriet Lemist, now dead—and I sent out the cards for the first meeting of the Roxbury League. We sent out about one hundred, securing the names from the list of women registered for the school suffrage. Five women and one man came. The man was not invited, but he was interested, so he remained. At the second meeting a month later more came, until at the end of the third month there was a membership of 32. Later, there were sixty and we became independent."

"Miss Lemist was the first president and I was the first secretary and treasurer. Since then I have held the office of president for a number of years.

"And the aim of the league, you ask? We wanted to interest and convert as many as we could to the suffrage cause and to get men nominated for office who were best fitted for the positions. You know there was much opposition and prejudice against suffrage in those days, and we used to try to get Legislators or Congressmen to attend our meetings or our dinners, and then to convert them to the justice of our cause.

"Sometimes we are successful and sometimes we are not. I remember one legislator who accepted an invitation to one of our dinners and with whom we worked zealously. When we were all through all he said, ponderously, was 'When the voters of Massachusetts feel that it is time for women to have the vote, they will give women the vote'—and that's all we got out of him"—and she laughed, for that remark has such a strangely familiar sound that we both realized how many times we had both heard it uttered by pugnacious and obdurate males—who had a ballot in their hands.

Mrs. Burr is the only woman living who attended that first meeting of the Roxbury Woman Suffrage League. Two women will attend the birthday party who were present at the second meeting, Mrs. S. E. D. Currier and Mrs. Rosa Prang Heinzen, and each will contribute to the brief historical sketches that will go to make up the program.

Miss Alice Paul

Miss Paul Asks for Prompt Action

By ALICE PAUL.

The Federal suffrage amendment as Susan B. Anthony drafted it has been before Congress since January 10, 1878. Just forty years from the day it was introduced it passed the House of Representatives. The first victory for the nation-wide enfranchisement of women was won by the indomitable courage and persistence of women. It represented the payment of a bitter price in time and strength and money. But with the amendment through the House our long, long struggle with Congress, dating back to the days before the Civil War, is half ended.

"The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of sex," our amendment reads. It is an expression of the fundamental principles of democracy on which this government is founded. It is an expression of the principle which the President has announced as our great war aim: "The right of those who submit to authority to have a voice in their own government." But though Congress has done half its duty toward making this principle a reality in the United States of America, it has done only half its duty.

Never was there a moment when the suffrage situation in Congress was more critical than today. For the first time suffragists have something to lose. Unless the bill which has just passed the House of Representatives passes the Senate during this same Congress, all that has been gained will be lost. Suffragists are in no mood to contemplate a fresh campaign on the four hundred and thirty-five men in the next House of Representatives.

Not only is there need for haste in the Senate in order to avoid losing all that has been gained, but there is necessity for speed in order to bring the ratification campaign quickly to a close. The Legislatures of Kentucky, Maryland, Massachusetts, Mississippi, Montana, New York, Rhode Island, Virginia, Wisconsin and Texas are in session. The Legislatures of Louisiana, Michigan and Georgia will soon convene in regular session, and the Legislatures of Connecticut, Missouri, Nebraska, Nevada and West Virginia may be called in special session.

Some of these Legislatures will close soon, and all of them in a short time. After these sessions have come to an end there will be no further sessions of any Legislatures until 1919 unless special ones are called.

$1,358,600 IN TIMBER LOST IN FOREST FIRES

Washington, March 13.—Timber to the extent of $1,358,600 was lost last year by Uncle Sam, in forest fires, according to forest service figures just compiled. The forest fires, burned more than 962,000 acres of national forests lands in 1917. This was the largest loss in several years.

$1,000,000 INHERITANCE TAX ON CRANE ESTATE

Pittsfield, March 13.—The inheritance tax on the estate of Zenas Crane, late of Dalton, will amount to over $1,000,000. Five per cent. of the total estate goes to the State and 16 per cent. to the Federal government.

BAPTISTS START DRIVE FOR $1,000,000

The raising of an extra million dollars over the current yearly fund necessary to maintain the work of the church is the object of the "extra million dollars by March 31" nation-wide campaign, the opening gun of which was fired for the Massachusetts Baptist laymen at a meeting in Ford Hall.

The extra million is needed in order to meet the greatly increased general cost of doing mission work; to make up the shrinkage in certain items of income; to cover anticipated diminution in receipts from legacies; to supply the full amount needed for the ministers and missionaries benefit fund; to provide for expenses in caring for Baptist soldiers now at cantonments; to prevent debt accumulation, and to maintain all this [illegible] at a time when the world needs all that Christian forces can [illegible]

The movement was first started in [illegible] when the National Committee of Northern Baptist Laymen was formed [illegible] an extra million through [illegible] The officers of the committee are F. W. Ayer of Camden, N. J., chairman; Ambrose Swasey of Cleveland, O., treasurer, and Fred [illegible] of New York, campaign director. Edward H. Haskell, Newton Centre, and George W. Coleman of Boston were appointed members of the committee.

WHY HAIR FALLS OUT

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of Danderine at any drug store for a few cents, pour a little in your hand and rub well into the scalp. After several applications all dandruff disappears and the hair stops coming out.—Advertisement.

TELLS DYSPEPTICS WHAT TO EAT

Avoid Indigestion, Sour, Acid Stomach, Heartburn, Gas on Stomach, Etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic "acid stomach" is exceedingly dangerous and sufferers should do either one of two things.

Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excess acid secretion or they can eat as they please in reason and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a little Bisurated Magnesia at their meals.

There is probably no better, safer or more reliable stomach antacid than Bisurated Magnesia and it is widely used for this purpose. It has no direct action on the stomach and is not a digestent. But a teaspoonful of the powder or a couple of five grain tablets taken in a little water with the food will neutralize the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the meal digests naturally and healthfully without need of pepsin pills or artificial digestents.

Get a few ounces of Bisurated Magnesia from any reliable druggist. Ask for either powder or tablets. It never comes as a liquid, milk or citrate and in the bisurated form is not a laxative. Try this plan and eat what you want at your next meal and see if this isn't the best advice you ever had on "what to eat." For sale at Liggett's Riker-Jaynes Drug Stores and other leading druggists.—Advertisement.

A CHILD DOESN'T LAUGH AND PLAY IF CONSTIPATED

Look, Mother! Is tongue coated, breath feverish and stomach sour?

"California Syrup of Figs" can't harm tender stomach, liver, bowels.

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhoea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ills; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious "fruit laxative," and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a bottle of "California Syrup of Figs," then look and see that it is made by the "California Fig Syrup Company."—Advertisement.

PIMPLES ALL OVER FACE AND BODY

Turned to Blotches. Disfigured Face Very Much. Cuticura Completely Healed.

"I broke out in small pimples all over my face and body. They soon turned into blotches that were large, and very red, and disfigured my face very much. They itched and burned and I kept at them so that I irritated the breaking out. I could hardly sleep.

"The trouble lasted three weeks before I used Cuticura Soap and Ointment. I was soon relieved and I used about one cake of Cuticura Soap and one box of Cuticura Ointment when my face was completely healed." (Signed) Miss Eva Dusseault, 14 Avery St., Providence, R. I., Nov. 23, 1917.

Stop the use of all doubtful soaps. Use Cuticura for all toilet purposes.

Sample Each Free by Mail. Address postcard: "Cuticura, Dept. H, Boston." Sold everywhere. Soap 25c. Ointment 25 and 50c.

RECIPE TO DARKEN GRAY HAIR

A Cincinnati Barber Tells How to Make a Remedy for Gray Hair.

Mr. Frank Haffbaugh of Cincinnati, O., who has been a barber for more than forty years, recently made the following statement:

"Anyone can prepare a simple mixture at home, at very little cost, that will darken gray hair and make it soft and glossy. To a half pint of water add 1 ounce bay rum, a small box of Barbo Compound and ¼ ounce glycerine. These ingredients can be bought at any drug store at very little cost. Apply to the hair twice a week until the desired shade is obtained. This will make a gray-haired person look twenty years younger. It does not color the scalp, is not sticky or greasy and does not rub off."

GASOLINE SAVED BY USE OF CHAINS

Anti-Skid Devices Are of Great Aid to Auto Truck Drivers

By C. F. DONNOCKER

The recent storm which again made traffic slippery and difficult, has brought forcibly to the attention of the observer the fact that most truck drivers lose valuable time and waste quantities of gasoline because their trucks become stalled when left near the curbs.

The driver may leave the car in the slush or water and by the time he is ready to drive away one of the wheels may be slightly frozen in the slush or be left on such a slippery spot that traction is impossible and then the incessant speeding of the motor and churning of wheels begins.

This could all be obviated if the trucks were supplied with one of the many chains made for either solid or pneumatic tires and there would be little time lost from this cause. Every truck driver should be taught the lesson of economy, both of time and power lost, and if supplied with any anti-skid device he should be made to use it in such instances.

* * *

A few years ago a journey of 971 miles to bring trucks from a factory would have been considered out of the question, yet a fleet of nine Kelly-Springfield motor trucks arrived at the local salesrooms this week after having covered the above distance over roads which were in some cases almost impassable.

The time taken for the journey was twelve days, but the recent snow storm caused considerable delay, as the trucks were not driven any at night and on last Sunday.

The trucks all arrived in good condition without accident. Service wheels were used so that the original tires would not be damaged. F. S. Aultman, local manager, is especially pleased over the condition of the trucks on their arrival, as the trip was unusually severe, even for one at this time of year.

* * *

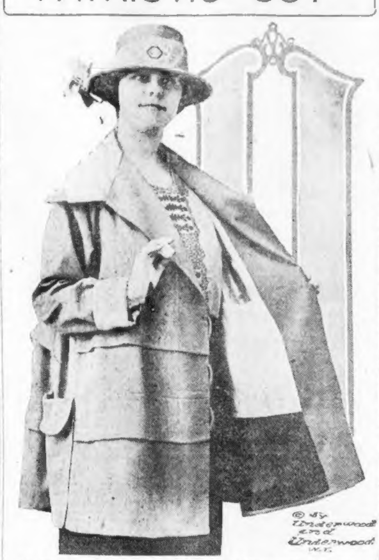
In going over your car, says W. E. Oakes, Local Manager of the Fisk Rubber Co., do not neglect to look under the seat or in your tool box in the car and take out any spare tubes you may have carried last season for emergency purposes. Inflate the tube so that it is rounded out to the shape it takes when it is inside the casing, using about 15 to 20 pounds air pressure. Set the tube aside for at least twenty-four hours inflated in this way. This is a sure means of detecting whether or not the tube is in fit condition to be used.

If it has lost any air pressure, again inflate and submerge the tube in a pail of water, turning it around so that gradually you take in each section of the tube. If there is a small leak, it will be noted by the escaping air forming bubbles under the water. Do the same with the valve stem as the valve's inside spring air check may be leaking. If so, unscrew the old valve inside and put in a new one.

* * *

"That the war is making for efficiency in American industry is nowhere better evidenced than in the effect it has had on the traffic departments of the various automobile concerns," says Geo. W. Leghorn, local Hupmobile dealer. "A few years ago the average efficient traffic manager would have told you that the possibilities for packing automobiles in various types of freight equipment were exhausted. Under the stress of present traffic conditions, in the Hupmobile factory alone, some half-dozen new ways of packing cars for shipment have been devised in the last six months. Other factories have been equally enterprising. The result is that the general standards of efficiency in the shipping departments have been perceptibly raised, and raised for all time."

MODISH COAT IN PATRIOTIC "CUT"



© by Underwood and Underwood N.Y.

An extremely stylish coat in light tan broadcloth with silk lining of red, white and blue is shown. The rolling sailor effect of the collar with the patch pockets and broad lines constitute the features of the modish garment.

RHODE ISLAND "DRY" FORCES UNDISMAYED

Assembly Votes to Indefinitely Postpone Ratification of Prohibition Amendment

Providence, March 12.—Prohibition vill be an issue at the next election n November, say advocates, who delare they are not discouraged over ne action of the State Senate in inefinitely postponing ratification of ne federal amendment by a vote of 3-18. Party lines were disregarded y the members.

The resolution, which passed the louse of Representatives recently, alling for a referendum, will be relgated to a committee from whence will not see the light of day, say hibyists.

State Senator William C. Troy, miority leader from Providence, flayed enators on the floor of the Senate r "prattling and whispering critiisms" while members were talking gainst ratification. Troy said in art:

"You men and good women come to e General Assembly in Rhode Island an effort to curtail the liberties f the people and make no effort to ve passed legislation which is of al interest to the people.

"You rely directly on a handful of antry members who are with you this moral measure, but are maniks when measures of interest to the eople are before the Assembly.

"This un-American form of governent which exists in Rhode Island, h as not allowing soldiers and dors the right to vote, as well as abolition of the property qualifiion, are measures where principles e involved.

"Instead you sit along the side lines d prattle and condemn members ho are voicing the wishes of the eater number of their constituents."

The Senate voted to postpone as llows:

Aldrich, Andrews, Archambault, ldington, Carpenter, Casey, Connery, rton, Head, Kane, Lamoureux, wis, McCabe, McKenna, McLough- Saugy, W. Simmons, Troy, Wuk-, Wulder.

Against postponement—Armstrong, Barry, Colwell, Cutler, Drummond, rnum, Harris, Hay, Hoxsie, Kenn, Langworthy, Madison, Peckham, att, Sherman, Smith, Taylor, Wadle

Newsboys of Boston Raise Fund for Those at Front

Boston newsboys are to contribute some of their hard-earned pennies to raise a fund for "newsies" now fighting at the front. The Boston Newsboys' Union is sponsor for the plan. The drive will begin next week when the 4,500 licensed newsboys in Boston will be called upon to make this sacrifice for their comrades in the trenches.

It is planned to spread the newsboy's fund campaign through the State. The money will be used to buy books, tobacco and other comforts for newsboy-soldiers and to help their families.

The fund committee includes Thomas J. Mulkearn, Charles Frasca, Samuel Sklar, Nathan S. Sodekson and "Happy" Rubinovitch, "king of the newsboys."

FULLERTON CONFIDENT MATTY WILL HAVE REDS IN THICK OF FIGHT ALL THE WAY

By HUGH S. FULLERTON.

Aeons and aeons ago (an aeon, children, is two years longer than Dave Altizer has been playing ball) the Cincinnati club won a pennant. That was a short time before any other clubs were in the league and some time before the Cincinnati idea that it took eight directors to run a team went into effect.

Since then no Cincinnati club has ever seriously threatened to win anything after April 12. This year a new situation arises. The Cincinnati club has a chance—has more than a chance to be in the National League pennant race all the way—and a fighting chance to win the pennant and get into the world's championship.

The team is good; it has a real manager, who has proved he can manage not only ball players, but owners, and it has a pitching staff, which, under the careful tutelage of this manager, ranks well up with the best.

Besides, it has a consistent, fair-hitting, fine-fielding and speedy team; well fortified against accidents and which, last season, learned to play together.

MATTY HAS DELIVERED.

It is a good team; a team capably handled by Mathewson; a team that is commencing to play smart baseball, and a team with all the equipment to beat the strong teams. It has something on the New York Giants; it has the equipment to beat the Chicago Cubs and those are the teams it must fear most.

But—when we dope a Cincinnati club there always is a BUT and usually that BUT makes good and spoils all the rest.

BUT—as we remarked—there is something else again, already. (Anyone in Cincinnati will understand that language.) That something else consists of the conscription laws.

The Cincinnati club must base its real chance to win a championship upon pitching. It is a fair hitting ball club and, in fact, was the best team-hitting club in the National League last year. It has punch and power, a trifle broken up, it is true, for consecutive hitting all down the batting order, but still powerful. Even if you admit that some of the batters went ahead of their gait last year, you must concede it is a powerful hitting aggregation and that it made almost as many runs per hit as did the champion Giants.

UP TO RED TWIRLERS.

Even so, the team, to be a serious contestant for championship honors, must rely upon its pitching. Mathewson showed last season that he is a master, not only of the art of pitching, but of teaching pitchers. He developed a pitching staff which, at the finish, was one of the most consistent and troublesome in the league, and one which was pointed especially to beat the Giants.

The basis of this staff was Fred Toney, one of the really great pitchers of the country; Hod Eller, a youngster who, under Matty's tuition, developed into one of the most effective pitchers in the league and a man who promised this season to rank among the first.

And Toney and Eller are in Class 1A of the conscription, and the chances are that both will be taken in the army. If they are taken during the season, Bang! go Cincinnati's chances until another staff can be built up.

Toney is in bad with the Federal authorities and his local drafting board because, it is charged, he tried to dodge the draft and was caught and placed among the first.

If Big Fred goes into the army, it probably will ruin the Cincinnati baseball club—but my, oh my, if he gets to throwing bombs, those Germans will be up against it, for Toney never saw a river he couldn't throw a stone across, and he could heave bombs clear across No Man's Land at its widest point.

Eller has a little better chance to escape being taken into the army, but he is rather eager to go.

MORRIS RATH IN SERVICE.

The team lost only one man to the army, but that loss was a heavy one. The man is Morris Rath, now in the Naval Reserve, who after failing as a White Sox, came back as one of the most promising recruits. He was a much-improved ball player and would have helped the infield. However, the infield needs little help.

Chase seems to have settled and gained ambition to play as he ought to have played years ago. He is a great player and is working well under Matty, even helping with the affairs of the team and working for the team itself. Groh is one of the greatest players of the league, Kopf is just satisfactory, and Shean is a good man, although he is a weak hitter. Bill McKechnie is not up to his Federal League standard.

But Matty has made another wise move. He has brought back Russ Blackburne, who failed so often that the majority of experts think he always was a false alarm. Listen to this: Even if Blackburne fails again, I always will contend that he is a working ball player. He has had a run of bad luck that has pursued him every time he has essayed to be a major leaguer.

BLACKBURNE IN AGAIN.

Blackburne has everything that a finished major league infielder needs. He is not a great hitter, but a better one than he never has shown in the American League. His bad leg, it is reported, has ceased to bother him, and a better sign is that he has ceased to worry and fret.

It was worrying and fretting that injured his work every time he tried with the Chicago White Sox. He may take Shean's regular job if he escapes another attack of hard luck, and the chances are that he will hit the National League pitchers much harder than he did the American Leaguers.

Sherry Magee, Griffith, Ed Roush and Earle Neale make a corking quartet. Magee ought to start hitting again where Stallings stopped him by making him bat to orders.

Besides these four, Matty has Anderson, who was recalled, and McHenry, purchased.

EVERS LIFE OF SOX PRACTICE; MAYS SIGNS

By HENRY L. DAILY.

Hot Springs, Ark., March 13.—The first army cantonment baseball park in the country will be dedicated March 23 at Little Rock when the Red Sox and Dodgers meet in their opening game.

The new park is situated just outside of Camp Pike, where more than 25,000 soldiers are stationed. The game at Little Rock will be followed by contests there March 24, 25, 27, 30 and 31.

These games will not interfere with those already scheduled here with Brooklyn, March 24 and 31.

The park at Camp Pike is being built by Bob Allen, former National League shortstop and owner of the Little Rock (Southern Association) club.

The Sox today went to Majestic Park for their second workout. Other than a few sore arms and kinky legs the players are feeling mighty chipper.

HIT SPORT TRAIL.

Manager Barrow takes the boys out to the park by the short route over the Ozark trail, and the return trip is made the same way. The workouts consist chiefly of light batting practice.

Barrow insists that the men hit and throw the ball lightly, and several times today he cautioned them not to hit the ball too hard.

Johnny Evers shows unusual pep. He hits the ball with force and has not a sign of his old arm trouble. He looks stronger than he did last season and is full of life.

Dan Howley took the pitchers in hand and kept Ruth, Mays and Jaynes busy picking up hot grounders and bunts.

Dick McCabe, in attempting to stop a fast grounder, bruised the index finger of his right hand and Howley, while chasing a batted ball, slipped and gave his ankle a slight twist. Both were minor injuries luckily.

Carl Mays has signed a contract and reported for practice today. Bob Fisher also was expected to arrive and McInnis is looked for by Saturday.

FIELD IN GREAT SHAPE.

The diamond is in perfect shape, dry as a bone and smooth as a billiard table. The players raced upon the field with a cheer and soon the crack of the pill against the bat could be heard. They were off like a shot, and would have continued at that pace if Barrows had not stopped them.

Joe Bush and Agnew warmed up back of first. Ruth batted a few hot ones to Evers and Wyckoff. Mayer and Schang also took a hand in the work, and for an hour the players went through all sorts of stunts with the pill.

There are only pitchers and catchers here at present, but in a few days the entire team will answer the roll-call and then practice will start in earnest.

The weather is delightful—a red hot sun during the middle of the day—just what is needed for the players to loosen up in, and then the gradual cooling off at night.

ALEXANDER WIRES HE IS READY TO SIGN UP

Chicago, March 13.—Grover Alexander, as stated exclusively by the International News Service last week, will be with the Chicago Cubs this year. Alexander has wired from his home in Nebraska advising President Weeghman that he will join the special at Kansas City, and that while en route to the coast he and the magnate will come to terms.

Infielder Pete Kilduff also wired Manager Mitchell he would join the party at Kansas City. When he and King Alex sign the last of the hold-outs will be in the fold.

BRIEF BITS OF BOXING

FRANKIE CALLAHAN, Brooklyn lightweight, and Terry Brooks, king of the newsboys, have signed to mingle in the main event at the Douglas A. A. of Chelsea next Monday night. They are to step the customary twelve-round route and weigh in at 136 pounds ringside.

TONY VATLAN and Al Delmont have been landed by Manager Jack Leonard to entertain in the semi-final. Al recently rocked Tony to sleep, and the Brighton boy is glad to get his chance to prove it was a lucky break for the veteran. Be that as it may, Al claims he can, and will, repeat.

Johnny Emery of Cambridge and Johnny Gray of Chelsea have signed to go on at the Commercial A. C., Friday night. They will box eight rounds.

ALECK MACLEAN has matched George Alger to have it out with Frankie Mack at the initial show of the Trinity A. C. of Cambridge. It breaks into the game a week from Thursday night. Alger has been taking it easy lately, but MacLean avers he will be cherry ripe for his Beachmont rival.

MACLEAN ALSO has signed Freddie Yelle to box Harry Condon at Taunton next Monday night.

YOUNG McGRAW JOINS BRAVES IN GOTHAM

By NICK FLATLEY.

New York, March 13.—The Braves—or the chroniclers thereof—arrived in this large town bright and early this morning. As we write this they are beating time waiting for the 9:15 for Washington. There they grab the chu-chu that will eventually pull in at Miami, Fla.

Just at present we are waiting anxiously to see if Richard Rudolph of West Nyack, N. J., puts in an appearance. Little Dick is a holdout, thus far. But he's expected to report before the 9:15 departs. He has asseverated at various times that he would rather cultivate chickens than pitch, but nobody believes it. B. M. Hapgood is carefully watching every $7,000 flivver that appears to see if Dick may be aboard.

Willard McGraw is here, so, even if Rudy doesn't show up, the party will have a little semblance of baseball as it sets out in the general direction of the said to be sunny South. By the time another dispatch is sent, there will be enough athletes and sufficient statementary evidence to prove that the season is actually under way.

Stallings Admits He Has Seen Herzog, But Says He Won't Talk Business

Macon, Ga., March 13.—The deal between the Boston Braves and the New York Giants, which sent Charley Herzog, captain of the 1917 Giants, to Boston in exchange for Larry Doyle and Pitcher Jess Barnes, stands in line to be upset.

Herzog is still holding out for a bonus, an increase in salary and an extension of his contract, which the Boston club has definitely refused to give him.

George Stallings, manager of the Braves, visited the Yankee training camp, and, speaking of Herzog, said:

"I saw Charley the other day down in Jacksonville, and could not get to him with a ten-foot pole. It's not up to the Boston club to make terms with him.

"Our two men have gone to the New York club's training camp and are getting in shape, and unless Herzog shows up soon I will demand them back. Even if he does change his mind in a couple of weeks he will not be in good shape to start the season."

JAMES J. CORBETT.

"JOHN L. AS I KNEW HIM"

BY JAMES J. CORBETT.

JOHN L. SULLIVAN

THIS is the twenty-first chapter of a series which James J. Corbett is writing on "John L. as I Knew Him." It relates many heretofore unpublished incidents in the life of the great warrior. The next installment will appear tomorrow.

The Sullivan-Kilrain fight in Richburg, Miss., in 1889 sounded the death knell for bare knuckle fighting. It was indisputably a brutal contest, and even those fans who loved the sight of gore in a prize ring had their desires more than satisfied. And so when public sentiment condemned London prize ring fighting no one made a defence in its behalf. And bare knuckle fighting was banned.

"That suits me perfectly," declared John L. "Before my fight with Kilrain I stated that it would be my last bare knuckle contest. Hereafter all my fights will be under Marquis of Queensberry rules."

And then the big question arose:

"Who shall be the heavyweight champion of the world under Marquis of Queensberry rules?"

John L. Sullivan at once answered:

"I am the champion under London prize ring rules and I guess I'm as much entitled as anybody else to the title under Marquis of Queensberry rules.

"I helped to introduce glove fighting in this country and was the first real champion to use gloves in big contests. So I hereby claim the Marquis of Queensberry title."

RIVAL CLAIM BY JACKSON.

A large majority of the public agreed with John L. but when Peter Jackson, the great negro warrior, set up a claim, there were some folks who felt that he had as much right to the Queensberry championship as had the mighty Bostonian.

This element pointed out that Jackson was the real Marquis of Queensberry type of fighter; a clever, brainy boxer and one given more to speed and to science than to brutal strength. But John L. scoffed at Jackson's claims.

At once the negro began to hurl challenges at the mighty white man. He pointed to his record as evidence that he, above all other men active in the ring at that time, had a right to fight with John L. Sullivan. And Jackson's work certainly was impressive.

The negro, who was a trifle more than six feet tall, and weighed in the neighborhood of 195 pounds, had begun his career in Australia in 1883.

Five years later he arrived in San Francisco, and his wonderful boxing ability soon made him a sensation. He took on foes as fast as they cared to face him, and one after another they went down and out before his merciless attack.

After having whipped all the prominent boxers in the West, Jackson swung through to the East, and his success continued.

JOHN L. DRAWS LINE.

And then Jackson went to England. There he met and defeated eight of the best fighters in that country. In 1890 he returned to the United States and continued along his winning way.

With each new triumph he hurled new defis at John L. Sullivan. But the big champion settled the question "Will you fight Jackson?" by announcing:

"I draw the color line. I will not fight a negro."

Every pressure was brought to bear to get John L. into the ring with Jackson, but the white man absolutely refused. Some persons, who were not friendly in their feelings toward Sullivan, claimed that John L. was afraid to meet Jackson.

But despite all these slurs on his ability, John L. was steadfast in his refusal to take on Jackson.

"I think I have earned a rest. I have fought practically every man that cared to face me almost from the day that I whipped Paddy Ryan.

"During my career so far I have licked more than 250 fighters and I guess there is glory enough in that for me.

"I want to settle down for a while and take things easy. There is no one left for me to fight except Jackson and I won't fight a negro. So I guess I'll loaf and enjoy myself."

KONETCHY WIRES AMERICAN HE'S A HOLD-OUT

St. Louis, March 13.

Sporting Editor The AMERICAN:

Will not report at Miami. Cannot agree to terms.

EDWARD J. KONETCHY.

By H. W. LANIGAN.

The Big Train has spoken as Brave followers may note above, and the Big Train is evidently bent on making a big hullabaloo over the terms offered for the coming season by President P. D. Haughton before he will swing into line and report to Manager Stallings at the training camp.

The Braves' management assumed Konetchy's old Federal League document when it brought him back into organized ball. It called for $6,666 per season, not $7,500 as was carelessly reported by Boston scribes from time to time.

Big Ed has been asked to sign for $4,414 this year. He said it isn't enough, hints strongly it isn't anywhere near enough.

The Big Train's telegram to the AMERICAN shows that he retains his membership in the Hold-Out Club. What's more, there's nothing to indicate that he's going to weaken, as he knows what he wants and evidently is bent upon getting it, or making good his threat of last November and quitting baseball for the cigar business.

RIVERS AND ZULU KID RENDER A SAD NUMBER

Providence, March 13.—Referee Jimmy Gardner stopped the bout between the Zulu Kid of New York and Joe Rivers of Gloucester, Mass., at Marieville in the eighth round, after both battlers galloped around like washer women. Repeated warnings to "get busy" were disregarded and the exhibition was a dismal one.

Harry Condon took a lacing from Johnny [illegible] for twelve rounds. Condon's efforts were pitiful.

STECHER TAKES MATCH FROM GEORGE MANICH

Worcester, March 13.—Joe Stecher, famed Iowa wrestler, won from George Manich in straight falls in their match here. Stecher gained his first fall in 18 m. and repeated in 5 m. In the preliminaries John Olin defeated Harry Stevens in straight falls and Peter Sturgis disposed of Tom Affan.

HOT SPRINGS AND HAVANA RACING RESULTS AND ENTRIES

AT HOT SPRINGS

ENTRIES.

FIRST RACE—Four-year-olds and up; six furlongs: Sir Oliver 103, Master McGrath 105, Korfhage 106, Scallywag 108, Charles Cannell 108, Lord Byron 108, xBrighouse 109, Scotch Kiss 111, Ewfa 111, Trusty 111, Felicidad 111, Billie B. 120. Also eligible: Dervish 114, Adalid 117, xOld Bob 103.

SECOND RACE—Three-year-olds and up; five and one-half furlongs: Dioscoride 90, xJuanita III. 111, Ilma Schorr 100, Green Grass 101, Ermitana 102, Lady Longfellow 101, xDavid Craig 105, Water War 110, Pilsen 110, Sir Edgar 111, Harry Mason 115, Captain Grundy 116. Also eligible: Paganini 105, xArch Plotter 110, Pockichoo 117.

THIRD RACE—Four-year-olds and up; mile and seventy yards: xLady Ward 98, xLast Spark 104, Stellarina 107, Hazelnut 108, Pin Money 109, Capitania 109, xSemper Stalwart 109, No Manager 109, Eddie T. 109, Lucky R. 112, Rhymer 113, Jack Reeves 114. Also eligible: Mab 103, Bingen 105, Sea Urchin 109.

FOURTH RACE—Three-year-olds and up; six furlongs: Onico 98, Happy Valley 100, Marie Miller 102, Icarus 104, Manokin 107, Opportunity 109, Bradley's Choice 112, Top o' th' Morning 112, Etruscan 112.

FIFTH RACE—Four-year-olds and up; mile and seventy yards: xBeautiful Morn 103, xuSrpassing 104, xAugustus Heinze 104, Ben Hampson 105, xMary H. 107, Euterpe 107, Fleuron II. 107, Harwood 109, Tarleton P. 109, Dundreary 109, King Mart 114, Mikifula 114. Also eligible: xPetlar (imp.) 104, Upright 109, xF. C. Cole 105.

SIXTH RACE—Three-year-olds and up; one mile: Lottery 99, Paddy Dear 103, Tokay 106, Warsaw 106, Beaverkill 109, Daddy Holbert 109.

xApprentice allowance claimed. Weather clear; track fast.

RESULTS.

FIRST RACE—Three-year-olds; claiming; six furlongs. Time—1:15.

	St.	Pl.	Sh.
Little Princess (Obert)	4-1	8-5	4-5
Black Bass (Rodriguez)	40-1	15-1	6-1
Miss Sweep (Troxler)	5-1	2-1	1-1

Alma Louise, Breezy, Tantalizer, Miss Agnes, Tell Me, Zip, Starry Banner, All Bright and Honolulu Boy also ran.

SECOND RACE—Four-year-olds and up; fillies and mares; claiming; six furlongs. Time—1:14 1-5.

Silvey Shapiro (Gray)	12-1	5-1	5-2
Miss Kruter (Obert)	7-2	6-5	3-5
Sister Susie (Dorsch)	10-1	4-1	2-1

Evelyn V., Sister Riley, Gladys I Am, Solveig, Thistle Green, Meelicka, Busy Alice, Martre and Bachelor's Blend also ran.

THIRD RACE—Four-year-olds and up; claiming; mile and one-sixteenth. Time—1:48.

Buck Nail (Riddle)	13-5	1-1	1-2
Flora Finch (Gentry)	10-1	4-1	2-1
Great Dolly (Sande)	6-1	2-1	1-1

Hickorynut, Harry Junior, Red Deer, Finalee, Louise Paul, John Hurle, J. C. Welch and Ben Levy also ran.

FOURTH RACE—Three-year-olds; claiming; one mile. Time—1:40 4-5.

Billy Nestlehouse (Keogh)	5-2	4-5	1-3
H. C. Basch (Ericson)	5-2	4-5	1-3
Thrift (Poole)	15-1	6-1	3-1

Star Baby, Hope, Mary's Beau and Aztec also ran.

FIFTH RACE—Three-year-olds and up; claiming; mile and one-sixteenth. Time—1:49 1-5.

Justice Goebel (Sande)	8-5	3-5	1-4
John Graham (Poole)	7-1	5-2	6-5
Ida Pinack (Rodriguez)	8-1	3-1	7-5

Lady Little, Juvenile, Alexander, Little Bigger, Dr. Embree, Thoughtreader, Matches, Billy Oliver and Fenrock also ran.

SIXTH RACE—Three-year-olds and up; claiming; mile and one-eighth. Time—1:54.

Dancer (Lyke)	10-1	4-1	2-1
Baby Cal (Robinson)	7-2	7-5	1-2
Bell Boy (Dorsch)	2-1	4-5	3-5

Conflagration, Lynn, Madame Herrmann, Bogart and Pleasureville also ran.

AT HAVANA

ENTRIES.

FIRST RACE—Three-year-olds and up; five furlongs: Duchess of Lirwill 108, Elizabeth McNaughton 108, Idolita 108, Cousin Bob 110, Scrimmage 113, Bulger 113, Donner 113, Massanet 113.

SECOND RACE—Three-year-olds and up; five furlongs: Beaumont Lady 108, aSpizzerinktum 108, aShoddy 113, Capt. Ben 113, Broberk 110, Napper Tandy 110, Remarkable 111, Elizabeth Lee 111.

THIRD RACE—Three-year-olds and up; five furlongs: Sweet Marguerite 97, Mr. Dooley 99, Kicking Kid 102, Twinkle Toes 108, Radiant Flower 110, Paulson 111, Detour 113, Ralph S. 113.

FOURTH RACE—Three-year-olds and up; five and one-half furlongs: xElizabeth H. 101, Eastern Princess 103, xIowa Roe O'Neil 104, Kildare Boy 111, Shiro 112, Herder 114.

FIFTH RACE—Three-year-olds and up; six furlongs: xProtection 99, Berlina 104, Lady Jane Grey 104, Merry Jubilee 104, Donner 105, Algardi 106, Enver Bey 106, Palafoita II. 108, Bulger 109.

SIXTH RACE—Three-year-olds and up; six furlongs: xMilbrey 100, Nettie Walcutt 101, xJames G. 102, James 103, Money 105, James Oakley 106, Bierman 107, xCurlicue 107, Brizz 110, Eddie Henry 112.

xApprentice allowance claimed. Weather cloudy; track fast.

At post in first race, 3 p. m. (Boston time, 2:27 p. m.)

RESULTS.

FIRST RACE—Three-year-olds and up; claiming; six furlongs. Time—1:14 2-5.

	St.	Pl.	Sh.
Amazonian (Pitz)	5-2	1-1	1-2
Baby Cole (Ball)	6-1	5-2	6-5
Joaquin (Hileman)	15-1	6-1	3-1

Twin Sis, Curls, Peachie, Fielder II., Rebel, Morristown, Sevillian, Milton Campbell and Canto also ran.

SECOND RACE—Three-year-olds and up; claiming; six furlongs. Time—1:13 1-5.

Wodan (Hileman)	8-5	7-10	1-3
Bit of Blarney (Hullman)	4-1	2-1	1-1
Bettleton (Collins)	2-1	1-1	1-2

Conflagration, Valspar, Arrow, Water Wings, Pierrat, Page White and Manfred also ran.

THIRD RACE—Three-year-olds; claiming; five and one-half furlongs. Time—1:07 2-5.

Napoli (Howard)	4-1	8-5	4-5
Little Menard (Pitz)	6-1	5-2	6-5
Kale (Lunsford)	6-1	5-2	6-5

Lady Moore, Leta, Babbling Brook and Job Thayer also ran.

FOURTH RACE—Three-year-olds and up; claiming; five and one-half furlongs. Time—1:07.

Early Sight (Wingfield)	7-2	1-1	1-2
Ague (Kleeger)	4-1	2-1	1-1
Du Flore (McCrann)	15-1	6-1	3-1

Rhyme, Katahdin, Omar, Palm Leaf, Remarkable, Big [illegible], Clumsy Kate, Jojam and Dr. Cann also ran.

FIFTH RACE—Four-year-olds and up; claiming; five and one-half furlongs. Time—1:08.

Ischgabibble (Pitz)	7-1	4-5	2-5
Broberk (McCrann)	6-1	2-1	8-5
Proctor (Hullman)	10-1	4-1	2-1

Lilienthal, Bendlet, Now Then, Dignity, Dash, Kid Nelson, Bank Bill and Massenet also ran.

SIXTH RACE—Three-year-olds and up; claiming; mile and fifty yards. Time—1:43 1-5.

Highland Lassie (Crump)	5-1	6-5	3-5
Flare (McCrann)	5-2	1-1	1-2
Phedoden (Hullman)	8-5	7-10	1-3

Count Boris, Circulate, Neptune and Fourtienaire also ran.

Veteran Kentucky Driver Dead

Paducah, Ky., March 13.—Colonel Tom Settle, sixty-nine, prominent horseman, who had driven on the Grand Circuit, is dead at his home here.

TURF INFORMATION

COLLYER'S SELECTIONS

AT HOT SPRINGS.

1—Billie B., Korfhage, Master McGrath.
2—Paganini, Pilsen, Captain Grundy.
3—Stellarina, Lady Ward, Rhymer.
4—Happy Valley, Top o' th' Morning, Etruscan.
5—Mary H., King Mart, Upright.
6—Warsaw, Daddy Holbert, Beaverkill.

Most probable winner—MARY H.

AT HAVANA.

1—Bulger, Scrimmage, Edith McNaughton.
2—Spence entry, Probeck, Captain Ben.
3—Paulson, Ralph S., Kicking Kid.
4—Herder, Eastern Princess, Kildare Boy.
5—Enver Bey, Palafoita II., Lady Jane Grey.
6—Money, Bierman, Curlicue.

Most probable winner—SPENCE ENTRY.

MARY H. NAMED AS HOT ONE BY COLLYER

By BERT E. COLLYER.

All Rights Reserved by Collyer's News Bureau

Mary H. This is the cash-getter passed me by the lads who fondle the tick-tock clocks, while the rank and file are warming feathers.

List to the gab they append: "Here is a maverick that on best form should be able to fall down, get up then be first to jump Judge Nelson."

Personally, I favor [illegible] to the extent that it looks like an excellent place to take the rubber off the [illegible] H. B. King Mart is fast and [illegible] as he has shown a disposition to [illegible] in his top notch over the [illegible] track. I think he should [illegible] with Upright holding the others safe. That last effort of the latter was [illegible] better than [illegible].

The opening spasm finds Billie B. favorably placed. The clockers favor Master McGrath and Sir Oliver. However, that makes no never mind. I look for Billie B. to bring home the bacon at a juicy price.

You have the answer in your lilly white mitt. The best [illegible] bet in this race is Korfhage, which won her last out in most [illegible] fashion.

In the second I drag another of those 30 to 1 merchants out of the old prize barrel, Paganini. If this trick only races to [illegible] trials, it will be a little puff of smoke, good night. Or, as [illegible] would put it, "He'll bring home [illegible] dough [illegible] to start a new Liberty Loan."

[illegible] which ran second last time out, is close up, with Grundy next in order. There was a small commission placed on the latter overnight. You have the info for what it is worth.

For the big splurge, fourth on the card, I slip you Happy Valley, which will have long and luscious odds against her today. This bird has been carefully prepared, and please don't allow the price to scare you off.

Top o' th' Morning is fast, game and consistent, and apparently favored by weight allotment. Etruscan, a hot dog last time, is [illegible] and good. She is sure to be right there knocking at the door. In this order I fancy them.

CARLSON GIVES JAWN DUNDEE GOOD SCRAP

Scotch Wop Gains Decision in Rapid 12-Rounder—Brockton Boy Proves His Class

By RINGSIDE.

Precisely as was expected, Johnny Dundee of New York, one of the undisputed topliners of the breezy lightweight division, outpranced and outpointed Harry Carlson of Brockton in their twelve-round game of fisticuffs at the Grand Opera House.

Dundee doped to win; ruled a smoky hot 2-to-5 favorite with the wisecracking brigade and well merited the decision he received from Referee Larry Conley. The bout, a corker from start to finish, was viewed by a veritable jam, one of the old-time Armory A. A. gatherings.

Dundee barely lost a single second of the tussle. He had it on his youthful opponent in the Queensberry game's every department: age, experience, ability—and, of course, class.

Just the same, Carlson gave him a great fight. The Brockton boy, plainly nervous at the outset, though doing enough scoring with his left jab to bound away from the barrier in front, made it a businesslike affair all the way.

In the semi-final, Pat Sullivan of New York gave Joe Youngsberg of the Hyde School all he wanted in [illegible] rounds. A big, awkward battler, with a punch, is Sullivan, and he carried entirely too many guns for Youngsberg.

Willie [illegible] of the Hyde School, set to a dismal start against Al Brady of Commonwealth Pier, put up a plucky battle and almost gained a draw after being on the floor most of the time in the first two stanzas.

Young Dyson, another of those whirlwind New Bedford little fellows, stopped Young Attell in less than a round. Whoops! 'Twas a Young Slaughter and then some.

FORMER AMATEUR STAR GETS A WARM WELCOME

Charles Askin, former holder of the New England and National amateur championships in the 145-pound class, now in the Naval Reserve, is in Boston on a ten-day furlough. Askin's old friends, including a number of Boston newsboys, held a banquet in his honor at which he was presented a wrist watch and a safety razor.

Askin enlisted in the navy while he was out on the Coast where he fought in bouts during the World's Fair. He is at present stationed in New York.

McCARTHY AND BOZINIS SIGNED UP BY TUOHEY

The Mike Yokel-John Kilonis championship wrestling match at the Grand Opera House tomorrow night will be preceded by a set-to between Patsy McCarthy, sturdy Irish lad, and Nick Bozinis, clever and speedy Greek. This will be limited in order to give Yokel and Kilonis plenty of time in which to settle their battle for the middleweight crown.

The championship match will be the best two out of three falls, under catch-as-catch-can rules, without time limit of any kind.

FORMER EXETER BOYS STAR IN HARVARD RUN

Jimmy O'Connell, crack Dorchester miler, won the 2,000-yard race in the mid-Winter track carnival at Harvard, with Hank Colligan, another former Exeter athlete, second. Hugh Perrin landed the 300-yard race, with Douglass second and Weld third.

CUT THIS OUT
What Nuxated Iron Is Made From
Sworn Statement of Composition of Its Formula
It increases the strength and endurance of delicate, nervous, run-down folks in ten days' time in many instances.

The Board of Directors have authorized the broadest publication of the sworn statement of the composition of Nuxated Iron, one of the most widely used tonic, strength and blood builders in the world, so that the public may examine it for themselves and judge as to its merits.

It is conservatively estimated that this remarkable formula is now being used by over [illegible] people annually in America alone. Among those who have used and strongly endorse it are many physicians formerly connected with well-known hospitals, former United States Senator Wm. E. Mason and Charles A. Towne, former members of Congress, distinguished U. S. Army Generals (Retired), Judge Atkinson of the United States Court of Claims at Washington and former Health Commissioner Kerr, of Chicago.

Newspapers everywhere are invited to copy this statement for the benefit of their readers. It is suggested that physicians make a record of it and keep it in their offices so that they may intelligently answer questions of patients concerning it. Everybody is advised to cut it out and keep it. A copy of the actual sworn statement will be sent to any one who desires such. It is as follows:

Iron Peptonate (Special specific Standard) Quantity given below
Sodium Glycerophosphates U.S.P. (Monsanto.)
Calcium Glycerophosphates U.S.P. (Monsanto.)
P. E. Nux Vomica U.S.P.
Cascarin Bitter
Magnesium Carbonate
Po. Ginger U.S.P.
Oil Cassia Cinnamon U.S.P.
Calcium Carbonate Precip. U.S.P.

Each dose of two tablets of Nuxated Iron contains one and one-half grains of organic iron in the form of iron peptonate of a special specific standard which in our opinion possesses superior qualities to any other known form of iron. By using other makes of Iron Peptonate we could have put the same quantity of actual iron in the tablets at less than one-fourth the cost to us, and by using metallic iron we could have accomplished the same thing at less than one-twelfth the cost; but by so doing we must have most certainly impaired their therapeutic efficacy. Glycerophosphates used in Nuxated Iron is one of the most expensive tonic ingredients known. It is especially recommended to build up the nerve force and thereby increase brain power, as glycerophosphates are said to contain phosphorus in a state very similar to that in which it is found in the nerve and brain cells of man.

As will be seen from the above, two important ingredients of Nuxated Iron (Iron Peptonate and Glycerophosphates) are very expensive products as compared with most other tonics.

Under such circumstances the temptation to adulteration and substitution by unscrupulous persons is very great and the public is hereby warned to be careful and see every bottle is plainly labeled "Nuxated Iron" by the Dae Health Laboratories, Paris, London, and Detroit, U. S. A., as this is the only genuine article. If you have taken other forms of iron without success, this does not prove Nuxated Iron will not help you. We guarantee satisfaction to every purchaser or your money will be refunded.

In regard to the value of Nuxated Iron, Dr. A. J. Newman, late Police Surgeon of the City of Chicago, and former House Surgeon Jefferson Park Hospital, Chicago, says it has proven through his own tests of it to excel any preparation he has ever used for creating red blood, building up the nerves and strengthening the muscles. Dr. J. W. Armistead, Grove Hill, Ala., graduate of the University of Alabama School of Medicine, Mobile, 1882, says: "In the cases I used Nuxated Iron I have found more beneficial results than from any preparation I have ever used in 14 years' practice." Dr. R. [illegible], Polkville, Miss., graduate of the Memphis Hospital College, Memphis, [illegible], says: "I always prescribe Nuxated Iron where a reconstructive tonic is indicated." Nuxated Iron often increases the strength and endurance of delicate, nervous, run-down folks in ten days' time.

NOTE: Nuxated Iron is not a secret remedy, but one which is well known to druggists everywhere. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach. Nuxated Iron is not recommended for use in cases of acute illness, but only as a tonic, strength and blood builder. (In case of illness always consult your family physician and be guided by his advice.) If in doubt as to whether or not you need a tonic, ask your doctor, as we do not wish to sell you Nuxated Iron if you do not require it. If you should use it and it does not help you, notify us and we will return your money. It is sold by all druggists. Dae Health Laboratories, Detroit, Mich.

Mars Now 60,000,000 Miles Away

MARS is now in opposition to the sun, or in its best phase for observation from the earth. It is not, however, what astronomers call a "favorable" opposition because it occurs when Mars is in the most distant part of its orbit. It is about 60,000,000 miles away

This Day in History

THIS is the anniversary of the declaration of a ban by the sovereigns of Europe, in 1815, against Napoleon. This action preceded the Battle of Waterloo by three months and marked the beginning of the end of Bonaparte's domination in continental politics.

Tact With the Child

PARENTS SHOULD ALWAYS USE IT

Prof. McKeever Points Out the Difference in Results With Diplomacy and Without It

By William A. McKeever

(One of the nation's foremost authorities in matters pertaining to training the child.)

A YOUNG mother was rushing through with a piece of sewing when Little Tommy-Four-Year-Old grabbed her thimble and ran with it. The mother called sharply for the article, gave hot pursuit, took the thimble by force, threw in a warm spanking for good measure to cover the next similar offence, and left the boy angry and squalling. The young marauder lay for a while and planned to get even the next time.

Another good mother wished to secure a bright new silver spoon which her little three-year-old girl was happily using as a sort of drum stick. So she came with an offering rather than an attack. "Here's your dolly. Look, Dolly's face is dirty. Let's go wash it and see if Dolly will cry." And in exchange for the doll she gently drew the spoon from the child's hand. That was an honest deal, fifty-fifty, and an example of fine diplomatic dealing with the nature of childhood.

Taught a Lesson

The chase and the spanking got quick results and "taught the boy a lesson." No doubt about that. But it looks very much like the beginning of a series of running fights between parent and child, to be continued for a decade, and a game in which the boy nearly always finally wins out. Such methods are sure to develop a mean cunning, a spirit of rebelliousness, a resentful attitude toward law and authority.

Diplomacy in dealing with children is always to be preferred; and, rightly understood, it proves to be merely a matter of intellectual fairness and straightforward honesty. The child has a right to have his opinions and impulses dealt with, not squelched. He comes by them honestly. They seem fair and reasonable to him.

"I always trade when I want to get something away from my child. It keeps her in good humor," said the second little mother as she explained her method. "My mother never crossed me or snatched things from me, and we were always happy companions," she continued.

How charming the phrase: "Always happy companions." And its significance as a relationship between parent and child seems to grow out of fair dealing. Although your small boy may for the moment be engaged in the acts of fighting, stealing, swearing, or what not—begin to deal with him by showing a respect for his point of view.

Remember that these admittedly serious acts are racial traits and tendencies out of which it is your duty to organize the higher forms of conduct. Like the mother in the dolly-spoon exchange, you can shift the point of view and the interest to something more desirable.

Essence of Diplomacy

So now we have discovered the essence of diplomacy in training the child. It is to be reasonable rather than spasmodic. It is to shift the interest to something which looks to the child equally as good as the thing given up, and which proves in the end to be far superior as character-building experience.

It may require only a short, quick suggestion to have your boy change from stoning his neighbor's chickens to repairing that same neighbor's fence. A slight redirection of the attention and effort and the boy who goes out to fight and pilfer may be turned toward constructive work for the Y. M. C. A. or gathering materials for the Red Cross.

Thus the Soldier of the Cross is but the old marauder born again into the life of the spirit, his cruder nature having been turned aside for the assertion of his higher self through somebody's reason, persuasion or diplomacy.

Begin early to use this fine spiritual method on your boy, your girl, and you will so assist them to organize their characters into a splendid constructive force.

The Manicure Lady

By William F. Kirk

I READ a dandy new novel last week," said the Manicure Lady. "It was mostly a love story, but there was a lot of scheming and fighting in it, too. You ought to read more of them novels, George. That's the kind of reading that folks gets the most pleasure out of, after all."

"I ain't read no novels since my Nick Carter days," said the Head Barber.

"Them wasn't novels! Them was trash!" exclaimed the Manicure Lady. "You wouldn't help your grammar none by reading them books."

"I was never much on grammar or books anyhow," declared the Head Barber. "What little I studied on them things only differed me. I figure that if you ain't got time to learn a lot about grammar it's foolish to learn a little. I just let my talk run right along, and if I can make the other fellow get what I'm driving at, that's all I care."

"Oh, but you should care more than that!" asserted the Manicure Lady. "You should remember, George, that folks judges us by the way we speak, and if we don't speak correct, we are put down as not knowing no more than what we should ought to. I noticed in this novel I was reading how the girl heroine and the rich aunt and the adventuress all spoke perfect, and I couldn't help thinking that it must be fine to hang out with that bunch, going through all your days refined and quiet, like a butler."

"I wouldn't been no butler!" the Head Barber declared. "A guy in this business has to take orders enough, but he's got a chance to come back if he is spoke to very rough, and a butler has to take what they hand him and never open his trap. I wouldn't be no butler!"

"Goodness knows you could learn a lot of manners from one of them butlers!" said the Manicure Lady. "I'll bet a butler wouldn't snap at me like you done many a time around this here shop."

"If I done that it was only for your own good, kiddo," the Head Barber assured her. "You was kind of green when you broke in here, and I had to show you the ropes. I don't snap at you none since you fit in handy around here and keep your place."

"I guess I always knew my place as well as any other folk, I might mention. But anyhow, as I was saying about that nice novel I read, I was telling sister Mayme that from now on I'm going to improve my mind by reading more and talking and dancing less.

"Mayme says reading is the bunk, but she'll get over feeling that way when she gets a little older. It's the dancing in them cabarets that kind of takes a girl's thoughts away for the time being from all them real, true romances that you read about in them good novels. Ain't it so, George?"

"Whatever you say is so, I reckon," replied the Head Barber, absently. "Hope Stein will blow in today. He was going to tell me about a good thing in New Orleans."

SPECIAL NOTICE.

This Face Powder Does Not Contain Any White Lead

Thousands of women have unsightly complexions because they use injurious face powder. A specialist has at last perfected a pure face powder that really stays on. It does not contain white lead or starchy rice powder to make it stick. Five thousand dollars is offered any chemist who analyzes it and finds it contains any white lead. White lead poisons the skin and rice powder turns into a gluey paste that encourages enlarged pores, blackheads and rice powder pimples. This improved formula contains a medicinal powder doctors use to heal the skin. In fact, this new powder helps to prevent and reduce enlarged pores, blackheads and pimples. It is called La-may (French, Poudre L'Ame). Because it is pure and because it stays on better than any other, it is already sold everywhere. The large size is only fifty cents and the half size twenty-five cents. When you see how wonderfully it beautifies your complexion, you will understand why La-may so quickly became the most popular beauty powder sold in New York.

ARE YOU STILL YOUNG AT HEART?

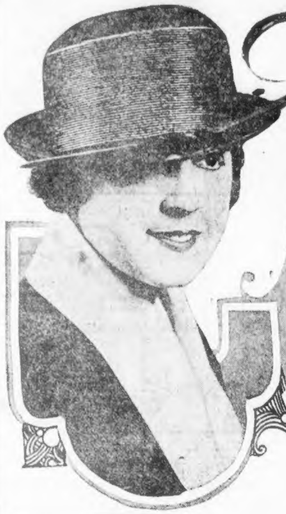
Then why look older than you feel? Don't let hair that is gray, streaked with gray or faded, exclude you from the pleasures or success which younger looking women enjoy.

You can keep the soft, dark, glossy color of your hair as long as you wish and do it in a harmless, natural way at little cost by an occasional application of Q-BAN Hair Color Restorer.

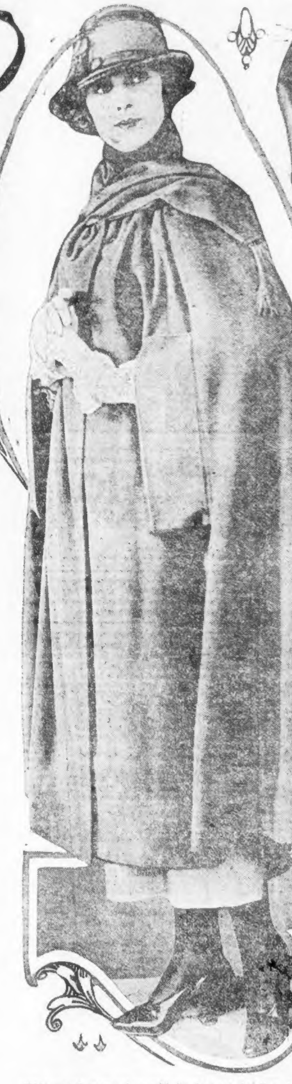
Q-BAN will not dye the hair, or give it an artificial look. It *restores* the natural dark color and gloss gradually and evenly. Q-BAN won't rub or wash off or stain the scalp, and does not interfere with washing or waving the hair. Is an excellent tonic and will completely eradicate dandruff. Easily applied.

Sold by all good durggists everywhere on Money-Back guarantee. Price 75c.

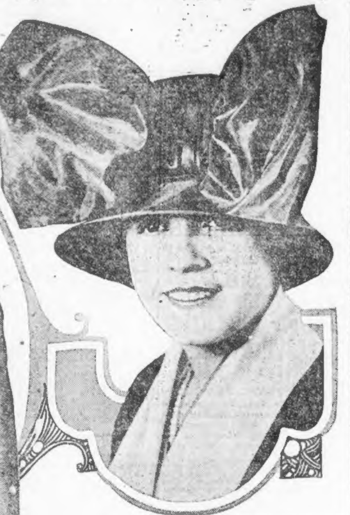
Smart Hats and Capes Heralds of Approaching Spring



This smartly tailored hat of black Milan straw has a crown of soft satin and is trimmed with a curled crow quill fancy.



This pearl gray velour with its deep scarf collar edged with heavy silk fringe is one of the up-to-date capes. Its lines give the reason for its popularity.



This smart fabric hat is made of black taffeta and reflects the spirit of the times in its huge Alsatian bow of the same material.

THAT SPRING HAT

With a Little Ingenuity You Can Make It at Home

By Rita Stuyvesant

MANY women feel that they cannot afford a new Spring hat this Spring because of the enormous expense of real necessities. These are surely the times, if ever, to pioneer in saving, and to try every road that seems to lead to that saving with satisfaction. Yet, in the Spring, war time or peace time, every woman desires a new hat, for the Winter hat seems sadly out of harmony with budding flowers and lawns rapidly growing green. But war-time thrift can be combined with Spring-time smartness, and many women are now "making over" last year's straw hat with surprisingly good results.

No matter how hopeless your straw hat may appear at present do not be discouraged. First carefully remove all the trimming and lining from it and brush the hat thoroughly. If you find the straw soiled and faded (especially under the trimming) the best thing is to dye the hat a new color. There are a number of hat dyes that can be purchased at the drug store for 25 cents and are really wonderful. The dye is a liquid that comes in a bottle with a brush for applying. It dries in thirty minutes, is washable and durable. Sixteen colors are offered ranging from bright cerise to jet black.

If the hat is "out of shape" lay it on the ironing board, cover the brim with a damp cheese cloth and press it with a good hot iron. By inverting the hat you can press inside the crown. It is best to press the shape before dyeing it.

One bottle of jet black dye solved the problem of a new hat for a lady of limited means. The hat was a large becoming sailor with the brim rolled up a little at the edge. The hat was originally cadet blue, but was faded. The jet black dye was used, and a smart, upstanding "fancy" was placed at the front of this good-looking tailored hat.

A school girl I know is saving part of her clothing allowance to buy "thrift stamps." Recently she showed me a lovely Spring hat made for less than fifty cents. The hat was from last Spring and was of a bright gold color straw trimming with black-eyed Susan daisies and ribbon. She removed the faded flowers and ribbon and recolored the hat a navy blue. The shape was a rather small mushroom model and very youthful and girlish. A yard of red velvet ribbon about an inch wide was found in the "rag bag" and steamed over the tea kettle to renew its freshness.

The velvet was drawn about the crown, ending in a neat horizontal bow with two or three loops and pointed end. For twenty cents this clever little girl purchased two bunches of bright red cherries in the five and ten-cent store. The cherries were arranged to the left side of the front and were extremely attractive. The hat was carefully relined with a bit of black cambric. This schoolgirl had saved at least two or three dollars that would have gone for a new hat and invested her money in thrift stamps.

Any woman or girl who feels that she cannot afford to buy a new Spring hat need only to bring forth her old straw hat and, with the aid of some dye and fresh trimming, convert it into a thing of beauty.

The Hidden Hand

A Great Film Serial By ARTHUR B. REEVE

EPISODE 13.

"The Tiger's Jaws"

Copyright, 1917, Star Company.

RAHNEE rose from her chair and extended her hand to them while the turbaned Hindoo his sword as though guarding his stood at one side with his hand on mistress. Verda continued to stare.

"I have heard of your power," mumbled the Hidden Hand in a low tone to Rahnee, who bowed in acquiescence.

Then the Hidden Hand produced the explosive packet and handed it to Rahnee, who pressed it to her forehead.

"You seek the girl whose handprints are the same as the baby handprints in this packet."

The Hidden Hand bowed in acknowledgment of her cleverness—and winked. She understood—and winked back. Verda looked apprehensively from this mummery that was to impress her to the Hindoo.

Strange Developments

Suddenly both Verda and the Hidden Hand started involuntarily. There was a low wail—half growl, half yelp, a thing of terror. It seemed to come from the depths—muffled—almost as if from the clock itself. The Hidden Hand quickly recovered himself.

Just then the clock door opened and another Hindoo stepped forth, stopping amazed and chagrined as if at revealing a secret to strangers. The clock door was false, the pendulum swinging independently and having no connection with the clock above, which had its own works. Verda looked more sharply. A dark passage was disclosed.

"Advance!" ordered Rahnee to the Hindoo, who came forward.

"The sacred Tiger grows worse and we have no sacrifice!"

As he said it, his eyes wandered to Verda. Her very glance suggested human sacrifice. Verda shrank back, as with a wave of her hand Rahnee negatived to the Hindoo.

But the Hidden Hand now moved closer and leaned over Rahnee, whispering as he finished: "If I bring the girl here, then you will have a sacrifice."

Rahnee agreed, while the Hindoo eyes gleamed. She rose and moved over to a cabinet, beckoning Verda who followed fearfully. Rahnee took a small box from the cabinet and handed it to her.

"Paint the portieres of Doris' room in the form of a man," she directed.

"And," added the Hidden Hand menacingly, "speak to Doris of her dead father just before she sleeps. Rahnee will do the rest."

Left to Hindoo

In whispers inaudible Rahnee and the Hidden Hand continued planning until finally, with Verda, he went out.

Below, in a subterranean vault or cellar, might have been seen a large room. At one end was a cage, and in the cage, pacing up and down, lashing his tail and in a fury, a huge, splendidly marked tiger.

Before the cage, in a semicircle, bowed the tiger worshippers, some Hindoos who had fled to New York, others the dupes of Yoga Rahnee.

The tiger tugged restlessly at his chain, as though he would gladly have devoured the very devotees before him. Truly the sacred tiger demanded a sacrifice.

In her apartment, Martha, the faithful old housekeeper to whom Doris retreated whenever in doubt, sat before a table, throwing cards.

She had just turned up the Jack of Diamonds and the Queen of Hearts, as Doris and Ramsay entered.

PUSS IN BOOTS JR.

A Pleasing Series of Good Night Stories

By David Cory

WELL, this story will tell you how Mr. Ulysses, with little puss Junior, finally reached home.

Now Mr. Ulysses had been away from Ithaca for more than twenty years. You see he had been to war with an army of famous Greeks, and while he was away a number of bad men had tried to take his palace away from his wife and son. So, as soon as he arrived on his native shore, the Goddess of War dressed him up as an old beggar, so that he could safely reach his own palace without being killed by the wicked men who were trying to get his lands away from him.

So he and Puss set out, and by and by they came to the palace, and just as they were entering the gate Mr. Ulysses's old dog ran out and would have licked his master's hand if Puss hadn't whispered to him, "Be careful or the people will know it's Mr. Ulysses." So that wise old dog didn't even bark, but made believe he didn't know his master.

And then pretty soon the son of Mr. Ulysses came out and invited them to have something to eat, for he was sorry for the old beggar whom he supposed his father to be, and for little Puss Junior, too, who was all tattered and torn, with holes in his red-topped boots.

But pretty soon Mr. Ulysses whispered in his son's ear who he was and then all three went into the castle. But no sooner did the wicked men who were feasting at the table see the old beggar and Puss all tattered and torn than they began to laugh, and one of them threw a stool at Mr. Ulysses. But he kept his temper until his son suggested that they try their skill with the bow and the arrow, and when they weren't looking he removed all the weapons except an old bow that belonged to Mr. Ulysses. But when they tried to bend the bow to fasten the string to it no man was strong enough to do it.

Then Mr. Ulysses said: "Let me try, for although I am a beggar I was once a soldier."

And then they all began to laugh, but they didn't laugh very long, for Mr. Ulysses bent the bow easily, and when he had fastened on the string he fitted an arrow to the bow and aimed it at the leader of the wicked men and killed him.

"And now, my dear Pen-el-o-pe, for this was her name," said Mr. Ulysses, "I want you to give something to my dear little comrade, Puss Junior, for without his help I would never be here, but at the bottom of the deep blue sea." So Mrs. Ulysses brought out a splendid suit of clothes and a new pair of red-top boots and gave them to Puss, and then the old dog came in and wagged his tail and played with Mr. Ulysses until dinner time. For that old dog had missed him so that for all those long twenty years he had never wagged his tail, not even once.

And this is the last of the stories about Mr. Ulysses, but next time you shall hear what Puss did, for pretty soon he set out again on his journey in search of further adventures.

LEARN NOT TO WORRY

A Calm Mind Is a Big Asset for a Woman in Business

By Eleanor Gilbert

Author of "The Ambitious Woman in Business"

I KNOW a middle-aged woman who has built an exceedingly profitable business out of a little specialty shop started many years ago, though she is neither an attractive nor interesting woman outside of her business. Why? Because she has the worry habit. She is nervous, irritable and is always under the doctor's care for something or other.

In her own beautiful home she would be confronted with the servant and other household problems, which are now a secondary consideration with her, but which would undoubtedly loom larger in importance if there were nothing else on her mind. For, as William Hard puts it, "troubles, like gas, expand to fill any void into which they are introduced."

Exceptional Woman

The opposite illustration is furnished by an exceptional woman I know who, up to a few years ago, held a most responsible position. Suddenly vague rumors began to circulate in her office about the insecurity of the business; and it was an open secret that her job, with its good salary, responsibility and prestige, was to be given to one of the new officers.

But did she seem worried about her precarious position? Not a bit, she was calm, congenial, and she made a determined effort not to be disturbed by the whole situation. Her peace of mind was more important to her than her job, and she kept it throughout the trying months. The consequence was that she retained her exuberant good health and clearness of mind and handled her job better than ever. When the time for the break came she showed such superior efficiency that, instead of losing her job, she was given even larger responsibility.

Very often the loss of a position breaks a girl's health more than difficult work does. "Louise looks very bad these days. She's lost her position." Losing a job, in itself, does not break down health. But—if she worries over her unemployment she begins to undermine her health. It is the way she reacts to her hardships—not the hardships themselves—that will hurt or strengthen her character.

A man told me not long ago that in his early business days when he started selling he used to feel tremendously depressed every time he missed a sale, and, as he missed five out of six sales, he had ample opportunity to develop a big depression fund! One day he hit on the bright idea that whenever he had an orderless day he would go out and buy himself a suit of clothes or some new neckties, or would send a box of candy to his best girl—anything to distract his mind into a cheerful channel.

Sense of Humor

He had to do this only two or three times; then his sense of humor came in and took possession, and thereafter his failures affected him no more. He simply managed his mental attitude and refused to let business worries have any effect on him. As the head of a big organization, full of complications and problems, he is today the most unruffled character.

Eats Candy But Loses Her Fat

Here's joyful news for every fleshy person who loves good things to eat, especially those who are denying themselves the things they like most because of their desire to keep down their weight or to reduce the fat with which they are already burdened.

The famous Marmola Prescription has been put up in convenient tablet form and is now sold by druggists everywhere at only 75 cents per large case. To get rid of fat at the rate of two to four pounds a week, simply take one of these little tablets after each meal and at bedtime until you have reduced your weight to where you want it. No wrinkles or flabbiness will remain to show where the fat came off.

Simply use Marmola Prescription Tablets according to directions; they are harmless, free from poisonous or injurious drugs and can be used with perfect safety. Try them for just a few weeks and get results without going through long sieges of tiresome exercises and starvation diet. Get them at any good drug store or send price direct to Marmola Company, 864 Woodward Ave., Detroit, Mich., and a full size package will be mailed to you direct in plain wrapper and postpaid.

FIGHT GAME AT PIER HIT BY HEAVY DRAFT

Many of the Mit Stars Leave with 600 Bluejackets

By Paul Whelton.

Aboard the Receiving Ship, Commonwealth Pier, March 13.—The drafts of the past week, which have "cleaned out" more than 600 bluejackets on the "Immobile" roster, have effectively put a crimp in the receiving ship boxing team. Already six of the sterling glove men who have gone through the past Winter's scrapping season "registering" victory have passed beyond this threshold and are now on their separate ways either to ships or to training stations at Norfolk, Va., and in Ireland.

Johnny Noonan, Patsy Grenn, Frank Brocado, "Young" Chiodo and "Long" Duffy are the six men who have packed their duds, and departed for other addresses.

The sudden calling away of the men, who were among the best of the fight squad, leaves the future of the game aboard the "Motionless" uncertain. Bouts were scheduled for a week from the coming Thursday with the Navy Yard but these will undoubtedly be postponed until a later date when Assistant Athletic Director R. V. Mooney, Instructor Eddie Murphy and Trainer Bill will have had an opportunity to whip another crew of argumentative gentlemen into fighting trim. More men will be called to don the padded mitts within the next few days.

* * *

Charles "Sailor" McGovern, on shore leave for a few days, has returned to the receiving ship. He has made one trip to sunny France, and reports no "subs."

TEN CANDIDATES BREVETED AT DEVENS

Highly Trained Men Assigned to Engineer's Corps for Early Action

By William Flynn.

Camp Devens, Ayer, March 13.—Ten candidates attending the third officers' training school, the majority of them non-commissioned officers attached to various units at this cantonment, have been commissioned second lieutenants in the engineer corps and are expected to be sent into active service as quickly as possible.

Those who received commissions were Sergeant Harry Joseph Woodward of Boston, Company D, 301st Infantry; Private John Bibbington of Wollaston, public utilities detachment; Private Albert A. Hyde of Chazy, N. Y., public utilities detachment; Corporal Joseph E. Maguire of Providence, R. I., Company D, 301st Engineers, and Sergeant Joseph J. O'Connor of Waterbury, Conn., Company G, 304th Infantry.

Sergeant Thomas W. Crosby of Hartford, Conn., 301st Ambulance Corps; Corporal Frank D. Barclay of Bridgeport, Conn., 151st Depot Brigade; Sergeant Warner B. Day of Hartford, Conn., 303rd Machine Gun Battalion; Private Horace H. Hume of Toledo, Ohio, and Private Homer A. Howe. Hume and Howe are college men who were sent here to take the officers' training course.

These men were selected because of their particular qualifications for a highly technical branch of the service which eventually is expected to play an important part in the operations of the American forces overseas.

EDITORIAL

Much criticism has been unleased regarding the treatment of soldiers at Camp Devens who have complained of being ill and who are alleged to have been kept in their barracks instead of being sent to the base hospital.

These charges may or may not be true, but the reports are spreading like wildfire and the subject is serious enough to be worthy of official investigation and immediate action taken, if action is found necessary.

The hospital is the place for any soldier who is sick—not his barracks. It has been said that some of the officers have not taken the complaints of some of their men seriously, and in at least one instance an enlisted man confined to his barracks was found in the crisis of pneumonia.

TANK RECRUITS CALLED AT AYER

Soldiers to Go Across Shortly; Want Specially Qualified Men

By William Flynn.

Camp Devens, Ayer, March 13.—New England boys trained at this cantonment will soon be blazing away at the Germans from the interior of the much-mooted tanks. A call has been sent out through the cantonment for volunteers for tank service and it has met with a ready response from members of nearly every unit quartered here.

Many of the men who came here in the last draft quota are expert mechanics who have had much experience in the manufacture of high grade machinery, watches and munitions and it is from this class that most of the men to man the rolling forts are expected to be selected.

Great care will be used in the selection of the men and each of the candidates will be compelled to pass a special examination before he is accepted.

Tank service is one of the most nerve racking and spectacular features of modern warfare and it is probable that those chosen for this service will receive their instruction from veteran officers of the British army who have used the tanks to excellent advantage in numerous engagements with the enemy.

Two officers and twenty-one men of the supply train, 301st regiment, have gone to Lima, Ohio, to bring several automobile trucks back to this cantonment. The men will drive the trucks back over the road as part of the War Department's program to acquaint the men with the handling of vehicles.

Steady Employment
Good Working Conditions
HOPE WEBBING CO.
Pawtucket, R. I.

ATTENTION
Machinists and Toolmakers
Our entire factory is employed on government work, making six and nine-inch shells and six-inch cannon, of which we have large contracts, and now manufacturing schedule calls for a large number of skilled workmen, principally in the gun department.
This work is exceedingly close and [illegible] work, and it is no easy task for this man to be employed in the production of this class of work. The tools that we have to work with are all new, the factory is new, and the general factory conditions are as good as can be reasonably expected. We have no labor trouble, never have had, and we use a goodly number of skilled workmen.
If you are a good all-around general machinist, used to good and close work, or a good all-around toolmaker or gauge and fixture maker, we can use you. We work three 8-hour shifts, 24 hours per day, time and one-half when overtime is worked. Shifts change each month. We will refund transportation in the wages after thirty days work with us. If you are now employed on government work, stay where you are. If not, apply to

For This Handsome LAMP

Easily worth $8.00, if you buy $100 worth or more during the month of March. Just one of the many advantages offered by this big Up-town Store, which for over 50 years has helped hundreds of people to build wonderfully happy and comfortable homes. Up-town with its very low expenses, it has saved them hundreds of dollars; then, too, when they have had sickness or other unforeseen conditions have arisen it has protected their homes. Facts you ought to consider when about to furnish your home, see us before buying, it is a pleasure to show you.

DON'T MISS IT

$55 SUITE $37

Here is the greatest value New England has ever seen in such a suite. This Fibre living room suite, covered in imitation Spanish leather, roomy, comfortable, luxurious, with seats 23 inches deep, 27 inches wide, back 22 inches high, the divan alone is a full size. See this value if only to learn where you can get the biggest value in Home Furnishings in New England.

OTHER BIG VALUES

$25 Brass Bed	$15.00
$14 Dining Table	$9.75
$30 Living Room Suite	$18.00
75c Congoleum	45c

Come Up-Town before you buy; it certainly will be worth your while.

$100 FOR $10

And $50 for $5 Down. Then Weekly Payments. Six months' credit without interest.

Face Specialists.

YOUR NOSE
IS IT A HANDICAP?

Bump Corrected. Dent Corrected.

AN IRREGULAR OR MALFORMED NOSE, whatever the type, no matter how great the deformity, whether from accident, birth or disease, can be CORRECTED painlessly, immediately (usually at one sitting), and without subsequent loss of time by

THE GIBSON METHOD

ALSO CORRECTED—Outstanding Ears, Thick Lips, Baggy Eyes, Frown Lines, Hollow Cheeks, Double Chin, Receding Chin, etc.

REMOVED—Moles, Warts, Wens, Red Veins, Red Nose, Scars, Pittings, Pimples, Blackheads, Oily Skin, Tattoo, Superfluous Hair, etc.

Sagging Face
Corrected in 30 minutes. Makes old face young. No pain, risk of temporary disfigurement.
Removed by new method.

WRINKLES
Takes from ten days to two weeks. Lasts 10 to 25 years. Clear, smooth, firm face guaranteed.

HAIR The "Gibson Method" has installed the New ALPINE SUN LAMP, so successfully used at City Hospital here. The rays created by this apparatus (ultra-violet rays) positively grow HAIR, stop DANDRUFF, and relieve all scalp maladies, by these rays the

SKIN is quickly cleared of all eruptions and blemishes, as ACNE, BLACKHEADS, OILY SKIN, etc. LIQUID AIR always on hand for the removal of BIRTHMARKS, LUPUS and other blemishes, as moles, warts, etc.

Public Service Commission's Plan for Public Control of Elevated Is Explained

The **AMERICAN** has received a great many inquiries concerning the policy which underlies the plan recommended by the Public Service Commission to effect a permanent relief of conditions on the Boston Elevated Railway.

Briefly, that policy is the substitution of public control of the Elevated for private control. The Public Service Commission has recommended the passage of a law which shall relieve the present private directors of the Boston Elevated Railway of their powers and duties (from which a few of them would rejoice to be relieved), and enable the Governor to appoint two trustees, the Mayor to appoint two trustees and those four trustees to appoint a fifth trustee, those five trustees to control and manage the road exclusively in the public interest. The recommendation also provides that the stockholders of the road be guaranteed 5 and 5½ per cent. dividends on their stocks.

The bill has been submitted only in the rough, not as a perfect measure in detail. The Legislative Committee and the Public Service Commission will probably in the near future perfect its details.

But the great desideratum **IS THE TRANSFER OF CONTROL FROM PRIVATE TO PUBLIC HANDS—THE MAKING OF THE CONTROL ABSOLUTELY ALL PUBLIC.**

A distinguished, public-spirited, spasmodically radical fellow-citizen has at first blush raised a doubt in his own mind about the plan because the property of the road is not to be taken by the public, and will, for the present, remain in private hands. Therefore, says this gentleman, the trustees are to be required to run a road in which they have no interest. Now, is that so? This is just an off-hand doubt that this gentleman has thrown off. His intelligence will immediately on second thought show him that the trustees will have as much interest in the road which they will manage as any public official has in any **PUBLIC** property which he is managing. The property will be devoted **ENTIRELY** to the **PUBLIC** service. The public service, the public interest, is the test of the trustees' interest.

When the argument is made that the trustees have no interest in the property, the importance of the argument must lie in the assumption either that their lack of a personal interest in the property will accrue to the disadvantage of the property holders, the stockholders, or that the trustees' lack of a private interest in the property will prove a disadvantage to the public. Now it cannot prove to the disadvantage of the stockholders, because their interest in the property—that is, their dividends—is to be guaranteed. And how can it prove to the disadvantage of the public, since the object of the management of the road will be **WHOLLY** public? There will be no disposition, as under private management, to let the property deteriorate in order to pay dividends, and every object of the trustee management will be public service, giving to the public the best possible service for the least money.

We are more or less the victims of an inapt use of words in giving overemphasis to public **OWNERSHIP** as contrasted with public **CONTROL** of property devoted to the public service, such as the railroads, street railways, gas and electric companies. It is highly desirable, to be sure, that the property should be **OWNED** by the public in the ordinary sense of ownership, because when it is so owned in that sense no individual thinks he has a special interest in it as contrasted with an inconsistent interest of the public in it. One of the vital objects of public ownership and control of these public service corporations is the removal of special private interests in them, so that they may be operated wholly in the public interest and that there may cease to be the interference in politics by these persons with private interests who think that they must protect their **PROPERTY** by undue political influence. But any means which makes the **MANAGEMENT** wholly public, and entirely removes all special private interest in the management and affairs of the property, accomplishes the great reform which has been for years sought in this country under the name of public ownership. A street railway owned by the public and controlled and operated by private interest under a lease is just as bad, and perhaps a little worse, than property both **OWNED** and **CONTROLLED** by private interests.

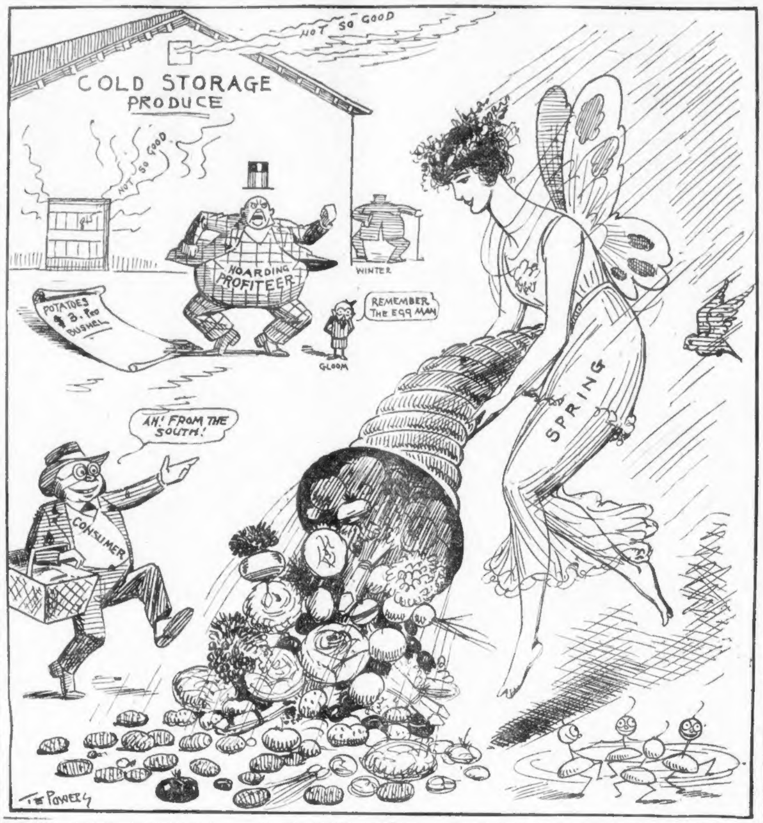
We spoke the other day of the pioneer experiment in public control of its street railway by the people of Glasgow, an experiment which was so wonderfully successful that nearly all the large cities of Great Britain followed the lead of Glasgow, and the cities of Germany followed the cities of Great Britain, and even improved upon the British experiment. **BUT**, as a matter of fact, the people of Glasgow when they began their experiment did not begin by buying the road, for they already had owned it. They had built their road originally and retained the ownership, but they had foolishly leased it to a private company, and the private company had mismanaged it, as a property will always be mismanaged when we undertake to mix up private and public interests. After the people of Glasgow had borne with private control of their street railway property until they could bear it no longer, they then proceeded to oust the private company and to control and manage the railway themselves. It was from that moment that the historic experiment in public **CONTROL** began in Glasgow.

That is exactly what the public Service Commission proposes in Boston with the Elevated. The plan is to take the control out of private hands—to cease the attempt to mix public and private interests. Men cannot run with the hare and course with the hounds. It is against human nature. Its failure was inevitable just as the failure of regulation was inevitable.

The transfer of public **CONTROL**, which is the important thing, is absolutely complete under the Public Service Commission's plan. While the stockholders technically, in the ordinary sense of the word, will continue to be the owners of the road, yet really their position will be very little different from that of government bondholders—their relation will be practically that of government bondholders specially secured by the Elevated properties, like bondholders of a street railway whose loan is for the purchase of equipment and is specially secured by the property purchased.

In the last analysis, anyway, the power of eminent domain always makes the State the real owner—the power possessing the highest title in all property. The intermediary private ownership, where it carries with it no power of control, is an unimportant consideration, except as a matter of psychology. It will be very desirable, at the very first convenient moment, for the public to purchase the property of the Elevated, in order to end forever the thought of private parties undertaking to control a vital public service like our street railways. But, otherwise, the kind of absolute public control proposed by the Public Service Commission meets practically all the difficulties and evils of private management of a great public function such as furnishing the people with their transportation.

Oh, Joy! -:- By T. E. Powers



GARRETT P. SERVISS' ARTICLE

The Gyroscope Is a Regular Mechanical Witch Whose Simple Magic Comes Through a Virtue Imparted by a Spinning Motion—It Possesses a Marvelous Sense of Direction

By Garrett P. Serviss

A READER asks how a gyroscope acts, and how it can be used to guide a torpedo or steer a ship. The gyroscope (or the gyrostat, another form of the same curious mechanism) performs so many practical paradoxes that those who do not understand the principle of its working might be excused for regarding it as a mechanical witch.

The secret of its singular powers resides in certain properties peculiar to spinning bodies. An ordinary top is an example of gyroscopic action, since it is the effect of the spin that keeps the top erect on its peg as long as its spinning motion continues. The moment that ceases the top falls over on its side. A bicycle in motion also involves the principle of the gyroscope.

Secret Disclosed

Without this principle to aid them the best jugglers on the stage would be unable to perform many of their apparent wonders, such as catching by the handle an endless string of knives thrown high in the air with one hand and recovered with the other; or pitching hats or cards or other objects with what seems almost miraculous power to guide them and make them go exactly where the thrower wishes, or even to come back to him.

All these things, and a thousand others not less amazing to the uninitiated, depend upon the principle that any body spinning about an axis tends to hold that axis steady to the direction in which it pointed when the spin began, and resists any force that strives to change the direction. Thus the spinning top stands upright because its axis of rotation is the upright peg.

A soft, flat felt hat rapidly whirled in the plane of its rim stiffens into a dish-like shape, and can be sent shooting across a stage. A knife skilfully whirled with its axis of rotation running through the handle may be tossed high in the air and will come back without turning over. A projectile from a rifled gun goes straight because it has a spin about an axis parallel to the direction of its flight, and the spin tends to keep that axis from swerving.

Among the "philosophical apparatus" which formerly collected dust in the glass-doored cabinets of many high schools and academies was sometimes to be seen a machine by which a circular disk of thin, tough paper could be set revolving with immense speed.

When not in motion the paper drooped, but after the spin was established it became almost as rigid as a whirling disk of steel, and when struck with a stick resisted the blow, and responded with a loud whack, as if it had really been as firm and solid as it looked. It would have been dangerous to touch its edge with the fingers, for it would have cut like a buzz-saw.

The quoit player and the baseball pitcher know the virtue of the spin, and it is beautifully shown in the children's game of "ring-toss."

Now, all these things are first cousins to the gyroscope and to the various forms of gyroscopic compass and gyroscopic guiding mechanism. A heavy wheel kept spinning at a high speed, with its axis directed straight ahead, will keep a torpedo on its course by shifting, through a system of gearing, the position of the rudders.

If the torpedo starts to swerve, the gyroscope, which is kept running either by a coiled spring or by a small electric motor enclosed in the torpedo, brings it back to its true course. Before the application of the gyroscopic principle to its guidance it was impossible to be sure just where a torpedo would go when shot out into the water. It is even possible, with the aid of a gyroscope, to cause a torpedo to change its direction after leaving the firing tube.

Cardinal Principle

For this purpose the axis of spin of the gyroscope wheel is set in the direction in which it is desired that the torpedo shall go after getting clear of the vessel from which it started. This is called "angle firing" and is so effective that a torpedo discharged from, say, the starboard side of a ship may, after getting under way, cross the ship's bow and go in a straight line toward a mark situated away off on the larboard side of the bow. When used as a compass the gyroscope simply indicates direction without acting upon the steering mechanism.

Remember that all of these phenomena are based upon the one simple principle that a spinning body tends to keep its axis unchanged in direction. It is because the spinning earth obeys that law that we have Winter and Summer succeeding one another.

As the earth goes round the sun it holds its slanting axis of daily rotation pointing toward a star that happens to lie nearly in line with it—in the northern hemisphere the star Polaris—and thus the slope of that axis is now toward and now away from the sun, so that the latter appears during one-half the year above and during the other half below the equator.

The Gold Star

(Suggested by the fact that a gold star takes the place of the blue on the service flag when her soldier boy gives up his life "over there.")

By N. J. Flatley

A STAR that was new and more radiant quite
Than all the soft beacons that blazon the night
Was found by a mother, a few years ago,
And warmed her great heart with its gladdening glow.

A bright blue star in a field of white;
Pledge of her boy who had gone to "the fight"—
A glint of joy in the mother's tears,
Pride in him more than her mother's fears.

A star that shines brighter through all the drear years
Blazes eternal now; rainbows the tears.
Tells in the daylight, tells in the shade
Our boast of old glory—a race unafraid.

A golden star on the service shield,
An unnamed grave on a shell-swept field:
A broken heart, with her day not done—
Hero—the mother, as well as the son.

One Who Remembers

Editor BOSTON AMERICAN:

In your issue of March 9 you wish to know how many remember the many good deeds your paper has done for the city of Boston. Well, sir, here is one who remembers with gratitude the many good things you have done, not only for the city of Boston, but for the good of mankind the world over. As an Irishman, let me take this opportunity to thank you for your kindly and manly handling of the Irish question at all times. If I was a Jew, I would also thank you for generous help in time of need, for which these people, I am sure, are very grateful. As an American citizen I am proud of your paper and all that it stands for. Yes, we remember your many activities, your unselfish patriotism, the numerous big fights you have waged for the benefit of all the people. If we had such a paper as the Boston AMERICAN in every city of the Union, the condition of the workingman, the business man and the country at large would be greatly benefited. Your paper creates a fine public spirit. It would eliminate graft and corruption from politics and big business. Your numerous staff of artists and writers provide entertainment and profitable reading for all members of the family. I am a workingman and like most workingmen of necessity have little writing to do. So keep up the big fight, attacking the enemy wherever you find him.

EDWARD DACEY.

Pawtucket, R. I.

WHAT IS LOVE? HERE IS THE ANSWER, MABEL!

By Elizabeth Jordan

Dear Miss Jordan—What is love? Don't tell us how it makes us feel. Just tell us what it is.

MABEL.

VERY well, Mabel. I am glad you don't wish me to tell how love makes us feel. If I had to do that, I should need more space than the paper gives me.

Also, I have a suspicion that you know how love makes us feel. There's a tone in your letter—— However, we will pass right on, Mabel, to the point that interests you.

What is love?

Mr. Webster tells us that it is "a feeling of strong personal attachment."

We know better. We know that it is more than that. We know that no mere "personal attachment," however strong, ever made us feel—but I am forgetting your caution, Mabel. We will confine ourselves to what love is.

We were right in our first criticism. It is more than a mere personal attachment. It is also "a desire for, and earnest effort to promote the welfare of another."

We are progressing, Mabel. That is indeed what love is. But even this is not all love is. This love, in which you and I are taking such broad, impersonal interest (regardless of how it makes us feel), this love is a pretty fine thing.

"Strong liking: fondness."

That, Mabel, is what we feel for our friends. I hope you don't mind having it pointed out. A strong liking, a fondness, an earnest desire to promote their welfare. Observe that there is nothing said here about their promoting our welfare. This strong liking, this fondness, to be the real thing, must be unselfish.

A Definition

What is that, Mabel? You think we haven't got to the root of the subject? Well—there is a little more. This, probably, is what you have in mind.

"Tender and passionate affection for one of the opposite sex."

We are now approaching the root.

The "tenderness" is all right. We recognize it joyfully. We know all about it. We have felt it for dozens of our friends.

But "the passionate affection"—ah, Mabel, here is something different. Here is the source of most of our happiness, of most of our woe, of most of our smiles, of most of our tears. But forgive me. Again I am forgetting that you don't want to know how love makes us feel!

Since I seem unable to confine myself to the real issue let us see what others think love is. The worlds of literature and art are flooded with light on this subject. Throughout the ages poets, artists and authors have tried to express love's essence in their various ways. Few, indeed, Mabel, have been as impersonal in their interest as you.

"Love is heaven and heaven is love," sang Sir Walter Scott. He forgot to add that, occasionally, at least, love also is hell.

For more light, let us turn to the highest authority—the Bible.

"Love," according to the New Testament," is the fulfilling of the law." There's something for you to think about, Mabel.

Woman's Existence

The Bible's definition, of course, gives us the answer to your question. Yet even that is not complete. You at once ask, "What law?" I at once reply, "The law of love"—and there we are again!

Let us try once more to discover what love really is. How about this?

Love is the incessant and insatiable hunger of the human heart.

I rather like that definition myself, Mabel, for it is mine own; but you are so quick that you come right back at me.

"For what?" you ask.

Well, let me see for what. For companionship; for affection; for strong personal attachment; for understanding, which is another word for love; for the tender and passionate attachment of one of the other sex; for the love and possession of the one to whom we are tenderly and passionately attached.

You see we have swung around the circle, Mabel, and come back to our starting point. Only two points need to be added to this brief explanation.

MODERN LOTS DISFIGURE THE WORLD'S BEAUTY

By Winifred Black

LOT'S wife came in to see me today. She's made of salt, and she's proud of it. She lived in a beautiful home in a beautiful city once, long and long ago, and Fate said that she should leave it all. So she shut the door of the beautiful house, and locked it and picked up her suitcase and her knitting bag and looked to the fastening of her bracelet watch, and settled her veil and started out into the wide world to seek her fortune.

It was a good fortune, too, that she sought, and she could have found it if only she hadn't turned around at the first turn of the road and looked back—and when she looked she turned to salt, and salt she's been ever since.

She was telling me about it this morning—she didn't know she was, but she was just the same.

"I can never get used to being alone," she said. "I feel so forlorn at twilight, somehow—that's the worst part of the day.

"And when I see people happy together, men and their wives, women and their husbands, children and their mothers—oh, I can't stand it! At least, I can't pretend any longer not to care.

"We were so happy, life was so gay and so friendly, and now"——

Poor woman! She's made of salt, and she's proud of it.

Those Who Look

Lot's brother was in yesterday—oh, no, all the people who look back and are turned to salt aren't women.

Lot's brother was a man in a good position once. He had money and friends and a nice, comfortable family, but his wife wasn't what he thought she was. And when the man found out about her, he left home, and forgot his friends and tried to forget his family, and now he wanders over the face of the earth—and remembers. Always and always he remembers—not the wistful eyes of the little boy who wonders where he has gone, not the sweet face of the little girl who cannot understand why she's deserted, but only the deceit of the woman he trusted who betrayed him.

He looks back always back. And he is turned, poor fellow, poor, foolish fellow—to salt, just as all those are who look back and not forward.

I know a woman who had a great business disappointment. She had an ambition and she failed in it. What did she do? Pick herself up and go on? Not she! She turned around and looked back, and turned—to salt.

What a mistake it is—what a foolish, bitter, cruel, short-sighted mistake—to look back and to turn to salt!

The world is so full of beautiful things. Why, just the yellow buds of the acacia blossoming in the gardens on the slope of Russian Hill, to see them is a joy. The ripple of the water in the sunshine, the strange spicy smell of the eucalyptus the sound of the laughter of little children—how like a peal of silver bells it is! The look in the eyes of a faithful dog who runs to meet you when you go home, the friendly smile of the conductor on the street car—how worth while it all is how very much worth while!

Not the Fashion

But if you're turned to salt, you don't see these things. You don't even know they exist.

It used to be the fashion to turn to salt.

I can remember a relative who came to visit us when I was a little girl. She was a widow, dressed all in crepe. She even had jet bracelets and a jet brooch to pin her collar. She lost her husband a year after they were married, so they said in whispers, and "she never got over it."

We all admired her very much for this, and thought she was romantic and beautiful and so "constant."

When I meet such a woman as that now, I'm sorry for her, but I don't admire her.

What right has she to throw the veil of her sorrow over this bright and beautiful world? How can she expect all the world to turn around with her and look back and turn to salt—even when it is very romantic and not at all unbecoming?
